: Can anyone help me with information and/or any artwork on the Society of Cincinnati and George Washington's involvment in that organization.

The society was formed May 13, 1783, at the Verplanck House in Fishkill, N.Y. It was named after the fifth century B.C. legendary Roman citizen-soldier and statesman Lucius Quintus Cincinnatus. Original chapters were limited to the 13 colonies and France, America's essential ally.

This first veterans service organization was founded primarily by Maj. Gen. Henry Knox, commander of the Continental Army artillery and the
nation's first secretary of war. Knox served as secretary-general of the Society under George Washington, who was its president-general until his
death in 1799. Founding principles included preservation of liberty, promotion of national unity and extension of benefits to officers in need and their families.

Eligibility in the Society was offered to officers who either served for the duration of the war, were "deranged" (declared no longer needed by Congress) or who served honorably for three years. Of 5,795 officers eligible, 2,403 joined (41 percent). The largest percentage of members hailed from Delaware. Some 243 French officers also joined. Charter members (eligible Revolutionary War officers) had to become members within six months of demobilization of the Continental Army in November 1783.

The Society's credo was "the glory of the soldiers cannot be completed without acting well the part of citizens." And that members did to the fullest extent.

Approximately 29 percent of delegates to the Constitutional Convention of 1787 were members. They also held four positions in Washington's cabinet and 18 percent of the seats in the first Congress.

Though members were prominent in state politics, law, medicine, commerce, finance and industry, art and education, the Society's importance faded after 1812 because of its dwindling membership.

Its last bona fide member died in 1854 in New York, but it still exists today as a hereditary society.

You can contact them at Anderson House, Washington, D.C.

Best regards,

National Society, Women Descendants of the Ancient and Honorable Artillery Company 1927

The National Society, Women Descendants of the Ancient and Honorable Artillery Company was founded in 1927 in Kansas City, Missouri, by Charles Neil Jewett, Mrs. Francis A. Tappan and her daughter, Mrs. Lucile Tappan Moreland.

The Society contributes generously to Hillside School in Marlborough, Massachusetts, and to Crossnore School in Crossnore, North Carolina. The Society has contributed to the reconstruction of the Captain Miles Standish House in Plimoth Plantation. In 1953 the flag of the Society was presented as part of a permanent exhibit to the Cathedral Church of Saints Peter and Paul (The National Cathedral).

Shortly before her Accession to the Throne in 1951, Her Majesty Queen Elizabeth II became an Honorary Member of the National Society, Women Descendants of the Ancient and Honorable Artillery Company.

OBJECTIVES

To aid in perpetuating and honoring the memory of the members of the Military Company of Massachusetts, afterwards known as the Ancient and Honorable Artillery Company of Massachusetts, who fought for the protection of the American Colonies and who aided in establishing the independence of the American people.

To commemorate the organization of the Society in 1637 and the granting to them of their Charter, March 17, 1638, and their first meeting under the Charter the first Monday in June 1638.

To incite to higher patriotism, a purer citizenship and an unswerving loyalty to our country.

To support and defend the Constitution of the United States in times of peace or war.

To foster a close fraternity among the members of the Society.

To aid in the study of Historical, Genealogical and Biographical research.

MEMBERSHIP REQUIREMENTS

Any woman over the age of eighteen years, who is lineally descended from a member of the Ancient and Honorable Artillery Company of Massachusetts, between the years 1637 and 1774, is eligible to membership in this Society, provided she is acceptable to the National Board of Management.

OBJECTIVES

"The following principles shall be immutable and form the basis of the Society of the Cincinnati:

An incessant attention to preserve inviolate those exalted rights and liberties of human nature for which they have fought and bled and without which the high rank of a rational being is a curse instead of a blessing.

An unalterable determination to promote and cherish, between the respective states that union and national honor so essentially necessary to their happiness and the future dignity of the American Empire.

To render permanent the cordial affection subsisting among the officers. This spirit will dictate brotherly kindness in all things and particularly extend to the most substantial acts of beneficence toward those officers and their families, who unfortunately may be under the necessity of receiving it."

From the Institution of the Society
of the Cincinnati, adopted May 13, 1783

MEMBERSHIP

An officer of the Continental Army was considered eligible for membership if he came under one of the following provisions:

a. Served to the end of the war. (October 19, 1781)
b. Resigned with honor after three years' service as an officer.
c. Was "deranged" in one of the several resolutions of Congress.
   The term "deranged" means being rendered supernumerary. In the absence of sufficient replacements, it was from time to time necessary to consolidate regiments, thereby rendering some of the officers supernumerary, so that they left the service. Many such officers had subsequent service in the Militia or even other Continental organizations.
d. An officer who had been killed in battle or died in service could be represented in the Society.

The *Institution* of the Society of the Cincinnati, in giving reasons for the Society's establishment, states that the "officers of the American Army do hereby, in the most solemn manner associate, constitute and combine themselves into one Society of Friends, to endure as long as they shall endure, or any of their eldest male posterity, and in failure thereof, the collateral branches who may be judged worthy of becoming its supporters and members."

The rules of admission to original or hereditary membership in the Society of the Cincinnati remained unchanged until the Triennial Meeting of the General Society held in Baltimore on May 18, 1854, at which time there was

adopted what is known as the *Rule of 1854*. It is thus stated in the Minutes of that Meeting:

"RESOLVED, That the General Society will not object to the admission of members by the State Societies of the lineal descendants to officers of any grade, commissioned or warrant officers, who have served three years in the War of the Revolution, and have been honorably discharged.

RESOLVED, That the lineal or collateral descendants of commissioned officers, killed or maimed in battle, may be admitted members, upon ample proof of the death of maiming of such ancestor in the cause of the War of Independence.

RESOLVED, That the direct descendants above mentioned of commissioned officers who may have served in the Revolutionary War and been honorably discharged may be admitted members of the State Societies, as they may think expedient, where the ancestor may have neglected to secure his own admission at the formation of the Society. This, upon sufficient payment of arrearage, and at the discretion of the State Societies, in order to add to their ranks honorable and venerable members.

RESOLVED, That it shall be necessary to the admission of all members included in the present resolves, that they apply the original pay of one month, together with interest at the rate not exceeding three per cent per annum, and that the accumulated recommendation of the General Society to commute it to half that sum, as circumstances and the ability of individuals shall indicate and justify.

RESOLVED, That it be enjoined upon the State Societies to keep constantly in mind, to preserve the blood of the descendant, that being of vital importance, and what will in the future lapse of time, give all the value which will attach to being a member of the Society of the Cincinnati."

The Rule of 1854 is not accepted by the State of Pennsylvania. Each State Society has the right and power to regulate the admission of members under the Institution. There are minor rules governing admissions which show slight differences among the State Societies.

Flagon and Trencher
(Descendants of Colonial Tavern Keepers)
1962

Flagon and Trencher, otherwise known as the Descendants of Colonial Tavern Keepers, originated in March 1962 as the result of a remark by Walter Lee Sheppard, Jr., during a speech before the National Genealogical Society in Washington. The first public announcement of the formation of the Society appeared in the *National Genealogical Society Quarterly* of December 1963. The first dinner meeting of the Society was held on May 21, 1965, in the Fraunces Tavern, New York City, with Dr. Kenneth Scott, who has done extensive research on colonial tavern keeping, as the speaker. Dinner meetings have been held in other Colonial taverns featuring menus and libations prepared from recipes of the Seventeenth and Eighteenth Centuries.

OBJECTIVES

To collect and disseminate among the members, and eventually to others, information concerning taverns, tavern keepers, tavern customs, recipes, menus, and all other data that may be pertinent.

To build a body of genealogical records showing descent from tavern keeping ancestors.

To recreate for members through dinner meetings, and other means, the spirit of good fellowship and friendship inherent in these purposes.

MEMBERSHIP REQUIREMENTS

Membership is limited to direct descendants of persons conducting a tavern, inn, ordinary or other type of hostelry on or prior to July 4, 1776.

The FLAGON

TRENCHER

The Colonial Dames of America "recognize outstanding and notable contributions to the perpetuation of the principles of the Republic of the United States of America" with an effective recognition program. In addition to an annual award for the most outstanding and pertinent book best expressing the ideals of the Founding Fathers, scholarships are granted to qualifying young Americans of Colonial ancestry. The scholarship program was instituted in 1926, and over 300 scholarships have been bestowed since that date. The Organization further dedicates itself to Americana by restoring and furnishing rooms in historic Colonial buildings including the Schuyler Mansion, General Washington's Morristown Headquarters and Rock Hall. At Jamestown, the Society has donated the handsome Memorial Gates at the Eastern entrance of the estate of the Association for the Preservation of Virginia Antiquities.

OBJECTIVES

To collect manuscripts, traditions, relics and mementoes of bygone days for preservation.

To commemorate the history and success of the American Revolution and consequent birth of the republic of the United States.

To diffuse healthful and intelligent information in regard to American history and tending to create popular interest therein.

To inspire patriotism and love of country.

To promote social intercourse and fellowship among its members.

To inculcate among the young the obligations of patriotism and reverence for the founders of American Constitutional liberty.

MEMBERSHIP REQUIREMENTS

The Colonial Dames of America is composed entirely of women who are legitimately descended from some ancestor of worthy life who within the period beginning with the settlement of Jamestown, Virginia, May 13, 1607, and extending to, but not including, the Battle of Lexington April 19, 1775, served one or more of the thirteen original Colonies:

a. By holding public office in the government thereof;

b. By holding a commission in the armed forces thereof;

c. Or by otherwise serving one or more of said Colonies in the capacities specified in the Eligibility List.

To cherish and preserve the unity of Texas as achieved and established by the fathers and mothers of the Texas Revolution.

MEMBERSHIP REQUIREMENTS

Any woman having attained her sixteenth birthday is eligible to membership provided she is personally acceptable to the Association and is a lineal descendant of a man or a woman who rendered loyal service for Texas prior to consummation of the Annexation Agreement of the Republic of Texas with the United States of America, February 19, 1846. Acceptable service is (a) as a Colonist with Austin's Old Three Hundred, or any colonies authorized under the Spanish and Mexican Governments before the Texas Revolution, or those authorized by the Congress of the Republic of Texas; (b) as an officer or private in the service of The Colonies, or of the Republic of Texas; (c) as a loyal citizen who established residence in Texas prior to February 19, 1846; (d) as a recipient of a Land Grant authorized by the Provisional Government and the Republic of Texas. These grants include "Toby Script"; Headrights first, second, third and fourth class; Pre-emption Grants; Landscripts; Colony Contracts; Bounty Certificates and Donation Certificates.

of *Old Ironsides,* the Frigate *Constitution.* Five altar vases were given to the George Washington Memorial Chapel at Valley Forge. Funds were donated to Madame Curie's Radium Fund, and to the Roosevelt Memorial Association Library.

OBJECTIVES

To preserve and increase knowledge of the history of the American people by the preservation of documents and relics, the marking of historic spots, the recording of family histories and traditions, the celebrating of patriotic anniversaries, and especially the emphasizing and teaching of heroic deeds in the civil, military and naval life of those who molded this government of the United States and saved it from foes both within and without, between the close of the American Revolution and the close of the War of 1812.

MEMBERSHIP REQUIREMENTS

Any woman over eighteen years of age, of good character, and any child up to twenty-one years of age, who offers satisfactory proof of lineal descent from an ancestor who rendered civil, military or naval service to this country during the years 1784-1815 inclusive, is eligible to membership, provided the applicant be acceptable to the Society. Civil service must have been in some one of the following capacities: those who signed the Oath of Allegiance or the Loyalty Test; all state, town, or county officials and jurors; a member of the Continental or Federal Congresses; or a member of a State Assembly or Legislature of one of the first eighteen States; a Delegate to the Convention which framed the Constitution of the United States; a Member of a State Convention which ratified the Constitution of the United States, an Elector of one of the first four Presidents of the United States Government; Legislative, Executive or Judicial Officers of the United States Government including such appointive officers as Treaty Commissioners, etc., Military or Naval Service may have been in any one of sixteen listed engagements between 1784 and 1815.

National Society of New England Women
1895

The National Society of New England Women was organized on January 24, 1895 by Mrs. William Gerry Slade and was incorporated in the State of New York on February 20, 1895.

The Society provides financial support for numerous charitable activities: the Kurn Hattin Homes, Inc., a residential school for underprivileged boys and girls in Vermont; the Clark School for the Deaf; the Helping Hand Fund to provide financial assistance to members of the Society; the Maude Brown Pendleton Student Loan Fund established at Pacific University, the New England College of the Northwest; the Emma Hardy Slade Student Loan Funds established at Middlebury College, Vermont, St. Lawrence University, New York, Baldwin Wallace College, Berea, Ohio and Austin College, Texas; and the Soldiers, Sailors' and Airmen's Club and the U.S.O. in New York City.

Particularly beautiful and symbolic of the spirit and activities of the women of this society is the "New England Benediction" composed by one of their members, Mrs. Flynn Guernsey Austin: "May the purity of the snows of New England; the uprightness of her fir trees; the strength of her hills; the peace of her valleys and the faith in God of her forefathers abide in our hearts and be manifested in our lives."

OBJECTIVES

To bring together women of similar background of New England ancestry to engage in charitable, educational and patriotic work and thus perpetuate the lofty ideals and examples of their forefathers.

MEMBERSHIP REQUIREMENTS

Any woman, eighteen years of age and over, who descends from one or more ancestors born in New England prior to the Signing of the Constitution of the United States in 1789, is eligible to membership in the society provided she is acceptable to the Colony she wishes to join and to the National Society.

The Society of The Ark and The Dove 1910

King Charles I granted the Charter of Maryland on June 20, 1632, to Cecilius Calvert, second Lord Baltimore and first Lord Proprietor of Maryland. Lord Baltimore dispatched colonists to Maryland in two vessels, *The Ark* and *The Dove*, under the command of his brother, Governor Leonard Calvert. On November 22, 1633, the ships sailed from Cowes, Isle of Wight, England, and first landed at St. Clement's Island on March 25, 1634. The Province was founded at St. Mary's City two days later.

In 1910, a group of lineal descendants of passengers on this memorable voyage of *The Ark* and *The Dove* organized the Society. George Norbury MacKenzie, renowned as the author of *The Colonial Families of the United States of America*, served as the first Governor.

Annually, the Society observes the anniversary of the sailing of *The Ark* and *The Dove* from Cowes with an appropriate program and ceremony. On the 300th anniversary of the founding of Maryland, the Society assumed a major role in the tricentennial observance, thus continuing a tradition of dedication to the history of the colonization of the Province and the genealogies of its founders.

OBJECTIVES

To establish and maintain a Society for the association of persons descended from passengers on *The Ark* and *The Dove* on its trip from England, arriving in Maryland in March 1634.

MEMBERSHIP REQUIREMENTS

Any person above the age of eighteen years shall be eligible to membership in The Society of The Ark and The Dove who is lineally descended from Sir George Calvert, the first Lord Baltimore, or from an ancestor who came over

either in The Ark or The Dove, bearing the first Maryland Colonists under the command of Governor Leonard Calvert, which sailed from Cowes, Isle of Wight, England, on November 22, 1633, and who settled in the Province of Maryland. Passengers whose lineages have been developed to the extent that their direct descendants are either members of the Society or are eligible to be members are: Thomas Allen, James Baldridge, Thomas Baldridge, Henry Bishop, Dr. John Briscoe, William Brown, John Bryan, Governor Leonard Calvert, Ann Cox, Richard Duke, Joseph Edlowe (Edloe), William Edwin, Cuthbert Fenwick, Captain Henry Fleete, Richard Gilbert, Governor Thomas Greene, Major John Hallowes (Hollis), Nicholas Harvey, John Hilliard, Thomas Hodges, John Metcalf, John Nevill, Richard Nevitt, John Price, Thomas Price (from whom President Richard Nixon descends), Robert Smith, Anne Smithson-Norman, Richard Thompson, William Thompson, Captain Robert Vaughan and Robert Wiseman.

Ancient and Honorable Artillery Company of Massachusetts 1637

IN 1537 KING HENRY VIII granted a Royal Charter to the Fraternity of St. George or Artillery Guild, later known as The Honourable Artillery Company of London. It is the only military body over which the British Parliament exercises no control. It exists at the pleasure of the Crown and regards itself as a personal bodyguard to the Sovereign. The Prince of Wales, many members of the nobility, the Lord Mayor and most of the Aldermen have belonged to the Company.

The first white settlers of Massachusetts were faced with the matter of self-protection against the exceedingly treacherous, wild and savage tribes of Indians. Volunteer military companies, called train bands were formed for this purpose and by the fall of 1636, seven such bands had been formed, each under the command of a captain, a lieutenant and an ensign. In view of the fact that several of the first settlers had been members of The Honourable Artillery Company of London, it was decided to establish such a company in the new colony which should not only be a school for officers for the train bands, but one for officers of any future troops which would be organized. With this purpose in mind, the officers of the voluntary train bands in the seven towns, together with the civic and business leaders of the day, formed a new military association, as a means of training officers. The meetings for instruction in discipline and tactics began in 1637 and a request for a charter of incorporation for the company was submitted to the Governor.

By order of Governor John Winthrop and Council, confirmed by the General Court on 13 March 1638, a charter was granted to the Military Company of Massachusetts, later to become known as the Ancient and Honorable Artillery Company of Massachusetts. Named in the charter of the Company were Robert Keayne, Nathaniel Duncan, Robert Sedgwick and William Spencer, Gentlemen. This organization was established along the lines of The Honourable Artillery Company of London. The Ancient and Honorable Artillery Company of Massachusetts is the first military organization chartered in the Western Hemisphere and the third oldest in the world, preceded only by the Swiss Guard and The Honourable Artillery Company of London. Its history surpasses all other institutions in the New World, except the Christian Church and the Public School, in existence on the American continent when it was chartered.

Since the time of Captain Robert Keayne, the first Captain Commanding, each Commander has accepted the tremendous responsibilities of the high office by

maintaining the traditions of the Company and to bring credit to its purpose of existence.

The highlights of the calendar year begin with June Day, which is the first Monday in June. On this day, the Company and invited military delegations parade in Boston, conduct the Drum Head Election of Officers for the coming year, attend Memorial Church Services where the annual Sermon and Ode are delivered and the reading of the Death Roll takes place. A banquet in the evening, attended by National, State and City dignitaries, concludes the activities.

The Company is represented throughout the year at various civic ceremonies and parades and is always accorded a place of honor and distinction.

The members of the Company have become known as ambassadors without portfolio. This has been brought about by the fact that the Company has a Fall Field Day Tour of Duty which for some time now, has taken the Company to various places around the world. Formal exchanges of good will are made with the leaders of the countries visited in respect to strengthening the relationship between the two nations.

The Cradle of Liberty, Faneuil Hall in Boston, is the headquarters of the Company. An Armory, a Military Museum and Library established in 1878 is maintained and open to the public. A visit to this historical Headquarters causes one to understand the significance of the traditions of the Ancient and Honorable Artillery Company of Massachusetts.

The Company has a democratic spirit within the ranks, whereby the high-ranking military man marches shoulder to shoulder with the private, depicting the pinnacle of comradeship. The Company takes justifiable pride in having had four Presidents of the United States as members, namely, James Monroe, Chester Alan Arthur, Calvin Coolidge and John F. Kennedy. In addition to this honor, four members have been recipients of our nation's highest military decoration, the Medal of Honor.

HEREDITARY AND LINEAGE SOCIETIES PUBLICATIONS FOUND AT CLAYTON LIBRARY

(Talk given to Clayton Library Friends Meeting, 18 May 1991, held at the Montrose Public Library Meeting Room - Ruby Dusek, President)

I hope that everyone has gotten the hand out that I put together. As you can see, I copied the Table of Contents from The Hereditary Register, this book you will find in the U.S. section at Clayton, 973 H542. They start with 1978, I think, but here's a hint, the latest copy is at the Information Desk which unfortunately is just 1983. Another source for the addresses of these different Hereditary and Lineage Societies may be found in the, The Source: A Guidebook of American Genealogy by Eakle and Cerny. These books are located at each Reference Desk and there are 3 or 4 on the shelf in the U. S. section, under the call number 973 S724. The addresses that are listed here also might be outdated, but the letter should get to the right person eventually.

As I look at this audience, I can see several persons that are far more qualified than I to tell you about these organizations because they have been active in many of them. Please correct me if I'm giving out some wrong information. Societies come and go, their rules are sometimes changed, sources that the Societies used to accept as proof, they have to disqualify. Example the DAR Lineage Volumes, 166 total. They are not, I repeat NOT accepted as proof of your lineage because so many of the applicants just said 'Grandpa told me' and they were not required to document their statements. BUT, use these as guides in your research, only guides now...sometimes you might just get a clue as to where to look. They are located in the U.S. section, 929.2 D...the Indexes are located 369.135 D238 !!! Altho the card catalog, at this point in time says that they are in the same location as the Indices, I know that I personally saw them in their old 929.2 location just a few days ago!! I shall refrain from any snide remarks about the catalog department at Central...there is hope that before too long the Staff at Clayton will have the monumental problem of correcting these irksome problems. At any rate there is a 'SEE' reference on the first volume of the series, the reference TELLS YOU where the Indexes are located!! Please note that in the case of the DAR Lineage Indexes...they stop with volume 160, so you will be forced to look at 6 volumes book by book.

By joining one of these organizations, you could easily find a living cousin, in fact most of us have. If you are really not a joiner, you must realize that this is a perfect place to have your records preserved. I sorta like my people in small groups, but now that I'm retired it is a good meeting ground for people who have similar interests. 'Course, there are always these people that join everything that comes along. Don't misunderstand, we need these people, they are

I sorta like my people in small groups, but now that I'm retired it is a good meeting ground for people who have similar interests. Course, there are always those people that join everything that comes along. Don't misunderstand, we need those people, they are

usually good workers and are many times the backbone of the organization. I shall never forget, having one tell me that she was an officer in so many different societies that she had resorted to getting these large plastic laundry baskets, labeling them with the name of the society and just lining them up on the floor. That way she could keep the different papers separate from others. My hat is off to her. Too many people, it seems would rather gripe about things than take the responsibility of an office.

I hope to touch today on a few of the Societies, tell you a little about them and some of the restrictions to getting accepted. Remember that many of these Societies are by INVITATION ONLY. It is understandable that they would wish to know something about you and their only way is to have a member sorta sponser you. Many of these Societies do not give out their addresses at all. A very few of them have limited membership. All this you will learn if you will just get that book, The Hereditary Register 973 H542. The Societies have their different projects...some collect Bible records and publish; some care for graves of their soldiers; they have scholarships for our young people; they are constantly pushing to preserve old records; they mark historical spots...all in all most of them are not just social 'tea parties' but are a grand addition to the scheme of things.

From my experience it seems that among the first to be joined is the DAR UDC and the DRT. Lets talk about the DAR first.

We have talked a little about the DAR, formed 1890,but to add on to what has already been said, The Patriots Index, is a good place to look. It is 3 vols., 369.135 D238. If you find your name in the listing, then you can always write to the DAR in Washington,DC, send them $3.00 for a copy of a recent member that has joined on the surname in which you are interested. Sometime there is a connection, others nothing. Most of the individual Chapters of DAR, in the area that your ancestor lived have published records. Use that new card catalog that we have now at Clayton, it is a honey. Under subject write in Daughters of the American Revolution and see what you find. They are considered the 'author', you see...and their publications are sometimes located in the 'D's in your State section. Your ancestor will have to have Civil or Military service between 19 Apr 1775 - 26 Nov 1783. They publish an a magazine with many interesting articles these are located at the end of the U.S. section, these books do not have a call number, being placed on the shelf alpabetically by their title. There is a rather interesting book title, Index of Patriots, put out by the Cincinnati Chapter of DAR. This is located 973 C641, U.S. section. They give a short lineage of the members of this Ohio Chapter.

The Ancient and Honorable Artillery Company of Massachusetts, formed 1637. This is the oldest military body and chartered organization on the American continent. Membership is limited to 550 regular members who do

usually good workers and are many times the backbone of the organization. I shall never forget, having one tell me that she was an officer in so many different societies that she had resorted to getting these large plastic laundry baskets, labeling them with the name of the society and just tossing them up on the floor. The Ancient and Honorable Artillery Company of Massachusetts, formed 1637. This is the oldest military body and chartered organization on the American continent. Membership is limited to 550 regular members who do

not have to descend from a former member. 'Right of descent' membership is open to any male descendant of a former member of the company whose service dates prior to 1738. Regular members must reside in MA., the others may live outside of the state. Their publications are in the U.S. section, 369.12 N277. Also see The History of A. & H. 974.4 R646 (MA)

The General Society of Colonial Wars, formed 1893, you will need an ancestor who served in military from the settlement of Jamestowne, VA in 1607 to the Battle of Lexington in 1775, or who held office as governor, lord proprietor or was a member of a legislative body of a colony in the time period. Remember we have the Pension records for all the wars on microfilm. See also the American Colonist in English Records, 929.3 S in English section.

The National Society Daughters of Colonial Wars, formed 1932, similar to those sited for the men's society. The Daughters' Lineage books or Registers are located in the U.S. section 369.12 D238.

The National Society Sons of the American Revolution, formed 1889, have had over 82,500 lineage papers of the National Society filmed by Salt Lake City and they are cross indexed by the name of the member and the name of ancestor. You will have to go to the Morman Branch Library for this, but many of the Societies of the various states have published their own Rosters. They have some books in the 369.135 D238. Many County Histories, especially those that were updated along about the time of the BiCentennial of our Nation, have a section in the history on the various wars that this particular countys 'boys' participated. Some of them go up through WWII. See also Revolutionary War Service Records and The Selected Pensions on film.

The Society of the Cincinnati...most prestigious. Founded 1783. My husband, who is not a genealogist, for the first time that I can remember was really impressed when told that he was eligible to join, WHEN THIS COUSIN DIES. You have to prove lineage to an officer of the Continental Line, the eldest male of a family is eligible, if none then a collateral branch may be accepted. Some State Societies have published works on their Chapters. Heitman's, Historical Register of Officers of the Continental Army during the War of the Revolution, pub 1914,located 973 H474. There is an Addenda by Robert H. Kelby, 1932 but I haven't located it at CL. Also once again the States have published such titles as Society of Colonial Wars in Commonwealth of Kentucky 976.9 S678 and Society of Kentucky Pioneers 976.9 S678

General Society Sons of the Revolution was founded in 1876 as a result of the stringent rules of The Society of Cincinnati, i.e. the eldest son. Membership is based on military service or descent from key civil officials. CL has some registers located 369.13 S699. Once again many state societies have published the lineages of that particular states' participants. Contact the Public Library in the State that you are

The General Society of the War of 1812, formed 1814 at Fort McHenry, Baltimore, MD was first of all a Maryland society i.e. Defenders of Baltimore. Until 1888, all the presidents were 1812 War veterns. Male lineal descent of participants in military or priviteer service. CL has the volume, The Register of the General Society of War 1812 by Frederick I. Ordway, Jr. located 973 S678 and our own Mary Fay's compilation, War of 1812 Veterns in TEXAS 976.4 F282.

National Society United States Daughters of 1812, formed 1892 on anniversary of Battle of New Orleans. I've been telling people for years that I just plain didn't have an ancestor that fought in the battle of 1812, which is true. Not until I started really reading the requirements for joining did I realize that the time bracket is from the close of the American Revolution in 1784, and encludes all sixteen recognized engagements between and up to the close of the War of 1812, which is 1815. The Texas Registers for the Society are located 369.175 U58. Of course, on film we have the 1812 Service Records and the pensions.

Sons of the Union Veterans of the Civil War, formed 1881. How many, many patrons have come to me asking what the initials, GAR meant. I hope that all of you know...Grand Army of the Republic. Of course, most of these organizations have the 'Children of' and 'Daughters of' or 'Sons of' organizations. These have been some of the War societies. I did see on the Bulletin board in the Snack Bar at CL the address of a fairly new society in this area...Mexican War Veterns, organized two years ago, 1114 Pacific St., Richardson,TX 75081. We have on film Texas-Mexican War; Index to Service of Volunteers Mexican War, 1846-1884; Index to Pension of Volunteers of Mexican War 1887-1926

Now for some of the Early Settlers and Ship Societies.

Many of the States have formed societies of 'Early Missouri Pioneers' or 'Early California Pioneers'. I haven't even touched those. A lot of these have cropped up fairly recently, it seems. There is also the Society of Descendants of Colonial Clergy 973 S678 with a Supplement. Colket's book, Founders of Early American Families 973 C696

The Daughters of the Republic of Texas, formed 1891. Descent from a loyal citizen who established residence in TX prior to the state's annexation on 19 Feb 1846. Mrs. Harry Joseph Morris, has compiled the lineages of members of this organization,(up to 1963) in her Daughters of the Republic of Texas: Founders and Patriots of the Republic of Texas. National Society of New England Women, formed 1895. Ancestor born in New England prior to the signing of the Constitution of the U.S., 4 Mar 1789. Agnes Tenney Callaway has formed a Colony here, just a few years back, 1985, and it is named for her ancestor, Deacon John Tenney Colony of Texas, #160. So you see, you can do that too!! Previous references would put you in the time period needed. See also Genealogical Dictionary of New England 929.4 S.

The most difficult lineage society to join must be The Order of the Founders and Patriots of America, formed 1896 for men descended in the male line of either parent from an ancestor who settled in one of the colonies prior to 13 May 1657 AND whose intermediate ancestor, in the same line, served in the War of the American Revolution. So you see, both founder and patriot must bear the surname of the applicant's father or mother! Call # 976.4 D238.

The Sons of the Republic of Texas, formed 1893, same requirements as above. The Sons's books are a big help to people, A New Land Beckoned; German Immigrants to Texas 1844-1847 located 976.4 S395; Miller's book, Bounty and Donation Land Grants of Texas 1835-1845 is located 976.4 M5[illegible].

National Society of New England Women, formed 1893. Ancestor born in New England prior to the signing of the Constitution of the U.S., 4 Mar 1789. Agnes Tenney Callaway has formed a Colony here, just a few years back, 1973, and it is named for her ancestor, Deacon John Tenney Colony of Texas, #160. So you see, you can do that too!! Previous references would put you in the time period needed. See also Genealogical Dictionary of New England 929.4 S.

The most difficult lineage society to join must be The Order of the Founders and Patriots of America, formed 1922 for men descended in the male line of either parent from an ancestor who settled in one of the colonies prior to 13 May 1607 AND whose intermediate ancestor, in the same line, served in the War of the American Revolution. So you see, both founder and patriot must bear the surname of the applicant's father or mother! Colket's, Founders of Early American Families-Emigrants from Europe 1607-1657, is an excellent volume to use, 973 C696. Also the

Registers of the F & P, 369.125 D238;

The National Society of the Daughters of Founders and Patriots of America, formed 1898, requires a little different time span whereby your ancestor ~~descendant~~ settled in any of the colonies ...13 May 1607 through 13 May 1687. This is 30 years later than the men's organization. See: the Lineage Books of Daughters of the Founders and Patriots 369.125 N. I don't know if we have all of them, over 45 vols.

Now for a few of the Ship Societies:

General Society of Mayflower Descendants, formed 1897, lineal descendant of a Mayflower passenger who arrived in Plymouth harbor in Dec 1620. Many individual State Societies have published material on their State's Mayflower descendants. The General Society has a major project called Mayflower Families Through Five Generations they are to be found in the Mass. section, 974.4 M468. There are four volumes out now, Vol. 1 contains Francis Eaton; Samuel Fuller; and William White. Vol. 2 contains James Chilton; Richard Moore; Thomas Rogers. Vol. 3 contains George Soule. Vol. 4 contains Edward Fuller. The Society also has what they call their Mayflower Families in Progress (MFIP), the 2nd Ed of the following passengers: Peter Brown-four gens; Francis Cooke-four gens; William Bradford-four gens; Edward Fuller-four gens; Richard Warren-four gens; Degory Priest-four gens; Edward Winslow-five gens; John Billington-five gens; Stephen Hopkins-four gens; Myles Standish-five gens; Isaac Allerton-four gens. These volumes are not with the previous volumes, but rather are in the family history section under the surname. These little booklets which are for sale by the Society for $6 or $7 dollars @ are really worth the money, I think. The Mayflower Ancestral Index, is located in two different places, 369.12 M468 and 929.2 S. This is to be used just for clues, the Society no longer accepts this volume as proof. The Mayflower Descendants, all 37 vols. are now located in MA 974.4 M468. Another interesting book is the Mayflower Source Records 974.4 M468.

The Society of the Ark and the Dove, formed 1910. Many people think that this is one boat, called The Ark and The Dove. There were two separate vessels that Sir. George Calvert, Lord Baltimore brought his settlers in Mar 1634. The Early Settlers of MD, 1633-80 by Skordus is located 975.2 H335 and has some good information. Also the Calvert Papers are on 15 or 16 reels of microfilm. The guide to this collection is located where all the Film Finding Aids are. It is a rather small paper back book that is self explanatory. Of course it is the papers of the various Lord Baltimores, i.e. their surname was Calvert. So you will have many Calvert references BUT other names do appear, in a court case against Lord Baltimore etc. Also a great deal about the boundary dispute between Pennsylvania and Maryland is included. The Flowering of the Maryland Palatinate, 975.2 N552 lists all the adventurers on the Ark and the Dove.

William Penn's ship, 'Welcome' arrived 24 Dec 1651., The Welcome Society of Pennsylvania, formed 1906. 'Welcome' Claimants, Proved, Disproved and Doubtful, is located 974.8 M132. See also Tepper's, New World Immigrants, located 973 N532.

We now have the family type societies, such as First Families of VA., Louisiana Colonials, etc.

The Jamestowne Society, formed 1936, open to descendants of stockholders in the Virginia Company of London or of Settlers at Jamestowne or the Jamestowne Island prior to 1700. See Records of Virginia Land Company of London in Virginia section, 975.5 V817.

Now for the Colonial Societies:

Obviously, your ancestor would have to be active during the Colonial Period with the cut off date, generally being 4 July 1771.

The Colonial Dames of America, formed 1890, ancestor holds public office or a commission in the armed forces from settlement of Jamestowne, 13 May 1607 to 19 April 1775; served one or more of the 13 original colonies by holding public office in government, or by holding a commission in the armed forces. In 1980, the local Chapter VIII , The Colonial Dames of America published the lineages of their first fifty years 369.12 C719. Also see The Complete Book of Emigrants in Bondage, 1614-1775 by Coldham 973 C688.

The National Society of the Colonial Dames of America, formed 1891, lineal descent from a resident of an American colony prior to 1750 who rendered efficient service to his/her country before 5 July 1776. Do you see how important it is to know the correct title of what ever organization you are talking about????

The National Society of Colonial Dames of the XVII Century, formed 1915, lineal descent from an ancestor who lived in one of the eleven British Colonies of America prior to 1701, as an immigrant colonist or a descendant of one. You will find some of their books in the U.S. section, 369.12 C. and 369.12 H985.

National Society of the Daughters of the American Colonists, formed 1921 for those who rendered civil or military service in any of the colonies prior to 4 July 1776. Lineage Books for national Society 929.2 D238 Close by are those real old, very large books , Colonial Families of America, 929.2 L and C and F.

Now for the Religious Societies:

The following are all based on the ancestor being of French Huguenot

William Penn's ship, 'Welcome' arrived 24 Dec 1681.. The Welcome Society of Pennsylvania, formed 1900. 'Welcome' Claimants, Proved, Disproved and Doubtful, is located 974.8 M122. See also Tepper's, New World Immigrants, located 973 M532.

Now for the Religious Societies:

The following are all based on the ancestor being of French Huguenot

descent, having fled from France because of religious persecution.

The Huguenot Society of America, formed 1883, ancestor immigrated to America prior to the Edict of Nantes, 28 Nov 1787. Register of Qualified Huguenot Ancestors 973 R331.

The Huguenot Society of South Carolina, formed in 1885 in Charleston, as above.

The Huguenot Society of the Founders of Manakin in the Colony of Virginia, formed 1922, any resident of VA prior to 1786. In the English section you will find the 53 vols of The Huguenot Society of London 942 H897. See also the Huguenot Refugees in the Settling of Colonial America, 973 H897. The appendix has a listing of refugees set up by state.

The National Huguenot Society, formed 1951 as a federation of State societies. Clayton has Register of Qualified Huguenot Ancestors 973 R331 is the call number.

Now we get to the Royal and Baronial Societies:

The National Society of Magna Charta Dames, formed 1909, descendants of the Magna Charta Sureties of 1215. Membership by invitation only. The Texas Society of Magna Charta Dames...369.11 N277. See also in the English section, Magna Charta volumes, by Wurts, 929.1 W. The Index is close by, 929.1 L786.

The above society is the best known of the Royal societies but there are others, just look at the Hereditary Register!!!

Some general type references I would recommend you use are; American Genealogical and Biographical Index , commonly known as 'Rider', 929.2 A512; Also 'Persi', stands for Periodical Source Index, a four volume set, 2 of which are Indexes, 016.929 P445...this will tell you if a periodcal has printed something on what ever you are interested. The following are all located in the U.S. section in the periodical section; New England Historical and Genealogical Record. Also what is known as TAG, The American Genealogist, and The National Genealogical Society. You are really missing a bet if you don't take the time to subscribe to one or two of these and then use the Library's copy and read them thoroughly. Fairly new is a collection, on film, called the Corbin Collection, about 42 reels of film. Named for Walter Corbin and wife Lottie, who were photographers by trade but genealogists also. Their information pertains mostly to Central and Western MA, 1650-1950 with a little of CN, NH, and RI represented. Church records, town records, family Bible records, gravestone entries, and genealogies on more than 500 families. This is one of those 'hidden' sources that we need to know about.

Now to give you my standard lecture, 101, how many of you know where the Ready Reference Shelf is located and use it?? You could get all this information that I've talked about today and much, much more by looking at the fabulous finding aids that the staff at CL have worked up through the years. They are to be found in those big loose leafed notebooks, on the other side of the Information desk and the micro-fiche and computer catalogs. A great one is titled, From Jamestown through World War II. or some such title. Breaks it down by wars, gives you titles and call numbers. The only way you can miss is if the cataloging department has changed the call numbers on us!!!.

Of course, as soon as something is published/printed, it is out of date. But it is very easy to see what is new in the Library, A big loose leafed notebook, on the top shelf over the New Books section, will list everyone and give you the call number.

I'll close with this last Society, which is just peachy.

Descendants of the Illegitimate Sons and Daughters of the Kings of Britain, formed in 1950 by four fellows of the American Society of Genealogists...to improve scholarship and research on all 'royal lineages'. Proof may be from illegitimate son, daughter, grandson, or granddaughter of a king or queen of England, Scotland or Wales. There are approximately 200 lineages that have been approved. Sent to members is the Manuscript of 'Royal Bastards from the Time of the Norman Conquest; The Constitution; Annual Reports, Lineages of Descents of Members. SEE: NGS vol 62, Sept 1974, pp 182-191. This volume lists the approved bastard lines...and I found one that I didn't know that I had!!

I hope that I have enlightened you a little on some of the Societies. There are lots and lots more titles. Clayton is a superb Library.

Dear Mrs. Jordan,

I must apologize for not having answered your letter sooner, but it had become mislaid among some other papers.

In answer to your inquiry of December 10th, our records show that your father, William K. Hill was born in Little Rock, Arkansas on March 17th, 1879.

If I can be of any further assistance please let me know.

Wishing you a Happy New Year

Sincerely and fraternally

Arthur S. Allen

GENERATION 4 & 5

1. Census of 1850 Florida,Montgomery Co., N. Y. shows F. A. Hill as 30 years old with his 2nd wife Emily and his son Enders.

Copy of MEMORANDA a chronological record of the Nicholas Hill family (father of Francis Asbury Hill). This chronicle was kept by Nicholas Hill's last child, John Lindsey, ½ brother to my Francis Asbury. This also shows birth date of Francis Asbury Hill,marriage date, and birth date of Enders Stanton Hill, son of Francis A. This complete chronicle is on file at Clayton Genealogical Library in Houston, Texas and is being sent to the DAR Library in Washington, D. C.

2. Copy of the Hill Bible page kept by Nicholas Hill on his 4 wives and 18 children. This special copy was made by the National Archives in Washington, D.C. because copying from the Pension records, on film, was not satisfactory in showing the marriage of Francis Asbury Hill and Sophia Geer Stanton, with the date.

3. Copy of the 1891 record on Thomas Stanton, of Connecticut and his Descendants shows the birth of Sophia
Gen. 5 Geer Stanton and her marriage to F. A. Hill and her parents as Joseph Stanton and Jane Van Derveer.

4. Copy of Van Derveer Family Bible, copied by the Amsterdam Chapter DAR, Montgomery Co., N. Y. which shows Jane VanDerveer's marriage to Joseph Stanton and her remarriage to John Sherbourn after Joseph's death. Bible record also shows Jane VanDerveer's birth date.

Copy of Hudson-Mohawk Genealogical and Family Memoirs, Vol. 1 published 1911 shows Jane VanDerveer's birth and two marriages.

(they being the eighth) direct to a Hollander and an Englishman, collaterally to a Frenchman. But, as the military record of the Vander Veers show, the commingling of blood has produced patriotic Americans.

VAN DERVEER

(IV) Garret, third son of Tunis (q. v.), and Aeltje (Schenck) Vander Veer, was born in Monmouth county, New Jersey, December 14, 1731, died there January 31, 1803. He married, April 20, 1756, Jane, daughter of Henry and Sarah (Schenck) Voorhees, by whom he had seven children. (In this line the family follows the Van Derveer form of the family name).

(V) John, third child and second son of Garret and Jane (Voorhees) Van Derveer, was born in Monmouth county, New Jersey, April 4, 1765, died May 8, 1839, in Montgomery county, New York. While yet a young man he came with one of his brothers to Montgomery county, where he proposed to make his home, and to that end bought property in what was then the town of Florida, and is now just outside of the fifth ward of the city of Amsterdam. Here he remained a short time, and then returned to New Jersey in order to marry the sweetheart whom he had left behind him, and whom he brought at once to the new home he had made for her. For the remainder of his life he lived on his farm in Montgomery county, New York, where he was fairly prosperous, became a man of some influence, and was highly esteemed and respected by the community in which he lived. He married, April 7, 1791, Catharine, born November 5, 1771, died January 26, 1850, daughter of Cornelius R. and Jane (Denise) Conover, of Monmouth county, New Jersey, granddaughter of Roeloff and Sarah (Voorhies) Cowenhoven, great-granddaughter of Cornelis Willemse and Margrietje Roelofse (Schenck) van Couwenhoven, great-great-granddaughter of Willem Gerritse and Jannetje Pieterse (Monfoort) Couwenhoven, great-great-great-granddaughter of Gerret Wolfertse van Couwenhoven and Aeltje, daughter of Cornelis Lambertse Cool, and great-great-great-great-granddaughter of Wolfert Gerretse and Neeltje van Couwenhoven, the emigrants from Amersfoort to Rensselaerwyck, where as early as 1630 he was superintendent of farms. Cornelius R. Conover died at an advanced age in New Jersey, and his widow, who survived him, then came to Montgomery county, New York, to the home of her daughter and son-in-law, and died there. Children of John and Catharine (Conover) Van Derveer: 1. Jane, born February 24, 1792, died April, 1876; married (first) Joseph Stanton; (second) John Sherburn; both now deceased. 2. Cornelius, born April 20, 1794, died May 13, 1843; accidentally killed on the outskirts of Amsterdam while blasting stone; married (first) Maria H. Phillips; (second) Sarah Shuler; both now deceased. 3. Sarah (Sallie), born April 4, 1796, died April 20, 1864; married (first) George Serviss; (second) James Greenman; both now deceased. 4. Garret, referred to below. 5. Tunis G., born April 7, 1800, died August 21, 1871. 6. John Jr., born June 16, 1807, died January 25, 1889; married (first) Mary Conover, of New Jersey; (second) Elizabeth Serviss, both now deceased. 7. Catharine J. A., born October 4, 1809, died March 23, 1890; married Peter I. Enders, who died leaving two children, Jacob and Kate, both now deceased. 8. Henry, born November 12, 1812, died February 15, 1837; married Martha A. Conover; had one child, born April 8, 1835, died July 5, 1837.

(VI) Garret, fourth child and second son of John and Catharine (Conover) Van Derveer, was born February 1, 1798, died May 25, 1885. He married, May 13, 1824, Mary Young, born July 30, 1799, died February 28, 1859. Children: 1. Peter Young, born June 21, 1825, died June 4, 1887; married, September 5, 1850, Rachel Vander Veer, born October 1, 1828, died April 30, 1885. 2. Catharine, born November 28, 1826; unmarried, resides in Florida. 3. Sarah A., born November 28, 1828, died December 8, 1903; married R. Taylor Johnson March 19, 1846; he died 1901. 4. Jane, born January 31, 1831; married Reuben Munson Hartley, born March 10, 1858; three children. 5. John J., born June 2, 1833, residing in Amsterdam. 6. Tunis, born October 31, 1835; lives with brother George, unmarried. 7. William Spencer, born October 8, 1837; married, September 15, 1863, S. Augusta Parks; children: Mary E., Katharine, Jay Howard and G. Herbert. 8. George, referred to below. 9. Henry, born April 11, 1842, died September 17, 1842.

(VII) George, fifth son of Garret and Mary (Young) Van Derveer, was born March 28, 1840. While his opportunities for an education were confined more or less to the public schools, he always carried off the laurels for his effort in public speaking, music and penmanship, and to these early characteristics he owes much of the pleasure and his identity in life, as he was in constant demand for many years as a public lecturer and organizer of Patrons of Husbandry organizations throughout the state. He organized the state and

MEMO FROM

MARY CAROLYN LEE

1-11-90

Hello, Vivian—
Here is your membership card for last year since I couldn't give it to you at a meeting. Also, importantly, your dues for '89-'90 were due Sept. 1 + became delinquent Dec. 31. Reminders have been in the news—

letters. Now it's time for me to turn in the annual per capita tax & membership report, so please send your $25. check, payable to the Chapter, to me at 7014 Beechnut, Houston 77074.

If for some reason you <u>don't</u> plan to continue your membership, I need to know this also. Please drop me a note or leave message at 774-1445.

Thanks!
Carolyn Lee

Dear Carolyn_

Believe it or not, I really thought I had paid my dues. I've debated the last 2 Or three times, that I really should demit because it was apparent that I wasn't going to make any of the meetings or be active.

I do not like being just a name on the roll so do, please just let me demit. I had thought, in transferring to a Chapeter that met at night, that I would be able to attend, but that didn't work out.

So I officially ask to be on the demitted list. I f I need to pay a prorated dues or what ever, please let me know.

Soryy, that I was such a ding-a-ling about this, but I retired from the Library in September of '89 and things have been hecti

Thanks again for your patience.

SOCIETY OF MAYFLOWER DESCENDANTS
IN THE STATE OF TEXAS

23 September 1982

Dear Mrs. Jordan

In answer to your letter of 7 September, I am enclosing a photocopy of your application.

I'm sorry that is all I am able to send you. Everything that was submitted with your application becomes the property of the General Society of Mayflower Descendants.

I'm sure you could receive a photocopy of the material by writing to the Historian General. His address is P. O. Box 297, Plymouth, Ma. 02361. Tell him that the papers are with Reject File No. 864.

Good luck and I'm looking forward to hearing from you again.

Sincerely,

Mrs. B. L. Simmering

Dear Mrs. Simmering:

If it is permissible, would you please send my papers back to me that I submitted on the Mosher or rather George Soule line. I was declined because of the Mosher connection.

I'm in the process right now of filling out more papers on another Mayflower line and some of my proofs are duplicated in the papers that you have.

If it isn't too much trouble I would like the papers back. I'll be happy to reimburse the postage by return mail.

Thank you.

Dear Mrs. Jordan,

Enclosed is the Pedigree Worksheet and a form to help you in filling it out. Upon completion, mail to the State Historian whose name appears on the "helps" sheet. She will then give you further instructions.

I still have not heard from the State Treasurer as to a refund made, if any, in connection with your previous application. I am asking him again.

I will look forward to welcoming you as a member of the Society.

Cordially yours,

Mrs. Vivian Hill Jordan
1530 Hawthorne Street
Houston, Texas 77006

Dear Mrs. Jordan:

Congratulations, you have been accepted for membership in the Huguenot Society of Texas. We hope you will be an active member.

Inclosed you will find a worksheet and instructions. Please complete this worksheet and return it with proof for each of the generations - birth, marriage, and death. After receipt of this information, if it is in order, you will be mailed three applications which you are to complete and have notarized.

There will be the following fee when the completed papers are sent to the Chapter Registrar: A check for $10.00 to The Huguenot society of Texas, initiation fee, and a check for $6.00 to St. Bartholomew Chapter, The Huguenot Society of Texas, dues for one year.

If you would like a certificate of membership, your check for $5.00 should be issued to The Huguenot Society of Texas, and the certificate will be sent to you after your papers have been accepted by National.

It is essential that your proof of ancestry is complete back to and including root ancestor's origin in France, and showing this root ancestor to have been a French Huguenot.

If I can assist you in any way, please let me know.

Sincerely,

Frances W. Brusse

12. Bridget Dryden, born about 1563, married (as his second wife) Rev. Francis Marbury of Alford, co. Lincoln, a minister in London, baptized 27 October 1555, Will proved 14 February 1610/11.

11. Anne Marbury, born 20 July 1591, married about 1612 William Hutchinson, born 1586, died 1642, son of Edward Hutchinson, who was buried at Alford 14 September 1631. They removed from Sandwich, co. Kent, to Massachusetts in 1634, where he was made Freeman the following year, and Representative to the General Court from 1635 to 1638, in which year they removed to Portsmouth, Rhode Island, where he was governor in 1639 and 1640.

Mrs. Anne Hutchinson courageously lived up to her convictions. Being a Quakeress, she and her husband and fifteen children were banished from Massachusetts in 1638 and went to the Narragansett country where they purchased Aquidneck Island from the Indians and founded the town of Portsmouth, Rhode Island. After her husband's death she went "into the Dutch country west of New Haven" with John Throckmorton who, on 6 July 1643, obtained from Governor Kieft in New York for himself and thirty-five associates a grant of land in Westchester County, a point jutting far out into Long Island Sound. It is now called Throg's Neck (an abbreviation of the old spelling Throgmorton). We learn the settlement here was of short duration, as Mr. Winthrop records, in September 1643, that the Indians set upon the English who dwelt under the Dutch and killed "such of Mr. Throckmorton's and Mr. Cornhill's families as were at home." Anne Hutchinson and most of her young children were also among those cruelly murdered. However, issue survived through two sons and two daughters who escaped, the youngest of whom was

10. Bridget Hutchinson, whose Will was proved in 1698. She married first in 1637 Gov. John Sanford of Providence, his second wife. His Will was proved in 1653.

He was subject to military duty in 1643 and had lands granted to him in Taunton in 1651. He went to New London in 1650 and settled at Stonington in 1654, where he received a grant for his services in the Pequot War. He was Deputy for Stonington to the Connecticut General Court 1665 and 1667, and Captain of 1st Connecticut Company in King Philip's War. He was killed at the Narragansett Fort in the Great Swamp Fight, 1675.

In 1685 the Colony of Connecticut granted Hannah Gallup, "as a recompense for the great losses she hath sustained . . . 200 acres of land . . . as her husband, Captain John Gallup, was so suddenly snatched away, he had not the opportunity to make that serious settlement of his estate and family concernes as otherwise might be expected, had he returned."

In 1643 he married in Boston Hannah, daughter of John Lake and his wife Margaret, daughter of Col. Edmund Reade. Mr. Woodman descends through two of their sons: Benadam, born 1655, of whom later, and

I, the purchaser named above, claim an exemption from payment of sales taxes for the purchase of taxable items described below or on the attached order or invoice:

Description of items to be purchased, or on the attached order or invoice:

Purchaser claims this exemption for the following reason:

NON-PROFIT ORG. 501 (C) (10)

I understand that I will be liable for payment of Sales Tax which may become due for failure to comply with the provisions of the State, City and/or Metropolitan Transit Authority Sales and Use Tax Laws and Comptroller rules regarding exempt purchases. Liability for the tax will be determined by the price paid for the taxable items purchased or the fair market rental value for the period of time used.

I understand that it is a misdemeanor to give an Exemption Certificate to the seller for taxable items which I know, at the time of purchase, will be used in a manner other than that expressed in this certificate and that upon conviction may be fined not more than $500 per offense.

September 26, 1991

Dear Sir:

As Supreme Council, S.J. will soon meet and announce those Masons who have been elected to receive the 33° and K.C.C.H. degrees, we are enclosing a copy of the color sheet which shows the various products which our firm manufactures for those degrees.

On the reverse side of this letter you will find a pricelist which gives your net costs for the various items shown on this sheet. These prices will be good as long as gold remains under $375.00 per ounce.

We hope these will be useful to you. Should you require any additional copies of the sheet or have any questions as to how to use it, please do not hesitate to call.

Sincerely,

Irwin Scharf

I, the purchaser named above, claim an exemption from payment of sales and use taxes (for the purchase of taxable items described below or on the attached order or invoice) from:

Seller: _____

Street address: _____ City, State, ZIP code: _____

Description of items to be purchased or on the attached order or invoice:

_____

_____

_____

Purchaser claims this exemption for the following reason:

_____

_____

_____

I understand that I will be liable for payment of sales or use taxes which may become due for failure to comply with the provisions of the Tax Code: Limited Sales, Excise, and Use Tax Act; Municipal Sales and Use Tax Act; Sales and Use Taxes for Special Purpose Taxing Authorities; County Sales and Use Tax Act; County Health Services Sales and Use Tax; The Texas Health and Safety Code; Special Provisions Relating to Hospital Districts, Emergency Services Districts, and Emergency Services Districts in counties with a population of 125,000 or less.

I understand that it is a criminal offense to give an exemption certificate to the seller for taxable items that I know, at the time of purchase, will be used in a manner other than that expressed in this certificate and, depending on the amount of tax evaded, the offense may range from a Class C misdemeanor to a felony of the second degree.

To: Jewelry Dealers

Supreme Council of the Southern Jurisdiction will be announcing the 33° and KCCH recipients in October.

We are enclosing our sheet showing the selection of items we manufacture for these degrees.

On the reverse side of this letter is a net list showing your costs for the items on the sheet.

At this writing, the price of gold is just under 375.00 per ounce. Should this figure change by more than 5% up or down, some of the items may be subject to price revisions.

We hope these are useful to you & should you have any questions as to how to use the sheet, please feel free to call us.

Sincerely,

S. SCHARF, INC.

PRICE LIST

FOR USE WITH OUR CATALOG NO. 78
MARCH 1, 1982
PRICES SUBJECT TO CHANGE WITHOUT NOTICE
Illustrations are actual size.

IMPORTANT

The Handy & Harman quote will be used as a guide to establish the range in which we will operate daily.

To the right of each price column, there is a column labeled G.A. This column indicates the gold adjustment per $5.00 change in the price of fine gold.

All prices and adjustments are keystone. Base prices are for a fine gold market of $395.01–$400.00 per ounce. Gold adjustments will be as follows:

Etc.	380.01-385.00	385.01-390.00	390.01-395.00	395.01-$400.00	400.01-405.00	405.01-410.00	410.01-415.00	Etc.
–	–3	–2	–1	NONE	+1	+2	+3	+

EXAMPLE: Style #105H on Page 3 is listed at $280.50 in 10K gold (Keystone) and a G.A. of $2.55 with fine gold in the $395.01-$400.00 range. If gold should advance to the $405.01-$410.00 range, add $5.10 (two units of the G.A.) for a total price of $285.60 (Keystone). If gold should decrease to the $390.01-$395.00 range, deduct $2.55 (one unit of the G.A.) for a total price of $277.95 (Keystone).

IMPORTANT

The Handy & Harman quote will be used as a guide to establish the range in which we will operate daily.

To the right of each price column, there is a column labeled G.A. This column indicates the gold adjustment per $5.00 change in the price of fine gold.

All prices and adjustments are keystone. Base prices are for a fine gold market of $395.01–$400.00 per ounce. Gold adjustments will be as follows:

The merchandise illustrated in this catalog is produced in our own factory located in Farmingdale, New York. The finished product starts out as raw material and ends up a finished item of jewelry.

The name of S. Scharf, Inc. has been associated with Fraternal and Emblematic Jewelry since 1935 when it was organized by the late Sol Scharf. Following his death in 1956 the business has continued in the same tradition under the ownership of his two sons.

The firm purchased the Irons and Russell Company of Providence, Rhode Island in 1968 and the emblem items produced by this division are illustrated in a separate catalog. The Rabin-Tobar Company of Newark, New Jersey was purchased in 1974 and the items illustrated in this catalog are a combination of the items produced by S. Scharf, Inc. and the former Rabin Tobar Company. We hope you will agree that it is a fine and well made selection and we invite your inquiry on any items which are not shown herein.

The merchandise illustrated in this catalog is produced in our own factory located in Farmingdale, New York. The finished product starts out as raw material and ends up a finished item of jewelry.

The name of S. Scharf, Inc. has been associated with Fraternal and Emblematic Jewelry since 1935 when it was organized by the late Sol Scharf. Following his death in 1956 the business has continued in the same tradition under the ownership of his two sons.

The firm purchased the Irons and Russell Company of Providence, Rhode Island in 1968 and the emblem items produced by this division are illustrated in a separate catalog. The Rabin-Tobar Company of Newark, New Jersey was purchased in 1974 and the items illustrated in this catalog are a combination of the items produced by S. Scharf, Inc. and the former Rabin Tobar Company. We hope you will agree that it is a fine and well made selection and we invite your inquiry on any items which are not shown herein.

GENERAL INFORMATION

All of the emblems illustrated in this catalog are die struck.

The great majority of rings illustrated in this catalog are die stamped which offers the following advantages over cast rings:

1. no porosity
2. will not crack in sizing
3. security in diamond setting
4. rings receive and retain a high polishing

Ring orders must specify finger size required or a stock size will be supplied. The maximum standard size is a size eight for a ladies ring and size eleven for a gents ring. An additional charge will apply for rings larger than these.

The items shown herein are sold only as finished items. We do not supply flats, trims, blanks, or ornaments.

All lapel buttons illustrated in this catalog are made with base metal lapel tacks and high quality grips. Threaded posts or tie tack attachments are available upon request.

Diamond settings used in all of our rings are palladium, thereby offering non-yellowing characteristics and high security for diamonds.

All illustrations herein contained are actual size and the information beneath each photograph advises whether emblems other than those shown are available in a particular style.

When ordering kindly give complete style number as it appears in this catalog and also the page number on which the item is illustrated.

We offer a repair service on emblematic jewelry to our regular accounts only. In the event we have to return an item as unrepairable or an estimate of repair is rejected we reserve the right to charge for return shipping and insurance.

A complete numerical index of the items appearing in this book will be found at the back of this book.

Fraternal And Emblematic Jewelry

By Sol Scharf

Fraternal Societies have been in existence since antiquity. Throughout the centuries mankind has adhered to Secret and Fraternal Orders. These societies were known among the ancient Greeks and they are mentioned by Aristophanes and other classical writers. Even during the dark period of medieval Europe there existed societies.

Some Fraternal Orders are outgrowths of the Guilds of these days and are still in existence. One of the better known orders is the Masons, originally founded approximately in the tenth century by craftsmen who built Churches and Cathedrals. These masons, desirous of safeguarding their craft and knowledge, adopted secret signs, pins, emblems and rings in order to be able to recognize each other. The masons employed for their emblem the tools of their trade and these symbols are still utilized.

In America, as well as all other parts of the world, there are many fraternal orders whose membership is not limited to specific crafts or tradesmen only, but rather to anyone who qualifies for the high moral and ethical concepts of the organization.

The object of these fraternal orders is to unite their members in a beneficiary society, some paying sick and funeral benefits. They are founded to furnish an organization affording its members the advantages of brotherhood. The more important fraternal orders in the United States include: Benefit societies, Mutual assessment societies, Cooperative and Educational, Social and Recreative, Mythical and Theosophical. Among the better known in America are the Order of Masons, Shriners, Odd Fellows, Elks, Moose, Knights of Columbus, Knights of Pythias, and many others. There are over 20,000,000 members in the various fraternal orders in the United States. This does not include the numerous members of the collegiate fraternities having chapters at the colleges throughout the country.

All these organizations utilize various forms of EMBLEMATIC JEWELRY and the Jewelry Trade benefits greatly thereby. Over the years a high degree of artisanship in producing jewelry for the different fraternal orders has been developed. Many of these orders have elaborate pins and rings. As the member advances through the various stages of the organization, different symbols denoting the degree of his increasing stature are added.

The quantity of jewelry used by these various societies is considerable. The fraternal orders utilize in many instances fine gold and platinum emblematic jewelry, set with diamonds and precious stones.

This is a big field to be cultivated by the wholesale and retail jeweler of every town, village and hamlet throughout the United States. The first step toward a complete understanding of Emblematic Jewelry is to contact a reputable EMBLEMATIC JEWELRY MANUFACTURER who will be pleased to assist you and give you all information you may require to successfully sell to this specialized field.

Dear Dan:

I am enclosing a photocopy of a letter which we recently sent out to the Secretaries in the Northern Jurisdiction with reference to the Pyramid. I know that the Valleys in Texas have pretty much been using the Pyramid and I thought that we might be able to give the people in Oregon who are making these a run for the money if we can offer something a little better.

At the present time, I can offer dealers a ten percent discount off these prices as is. Alternately, if you order at least 250 pieces, I will offer a five percent discount off the prices listed however that price will include three lines of printing in floating letters within the Pyramid. This will enable to Pyramid to be personalized and the writing inside might say

VALLEY OF.....
LODGE OF PERFECTION
CITY, STATE

To the best of my knowledge the people who are currently selling these are getting about $12.00 each for a quantity of 250 pieces and this does not, of course, include any kind of personalization.

If you need any further information, please be in touch with me and let me know how you make out.

Very truly yours,

Irwin Scharf

PRICE LIST

FOR USE WITH OUR CATALOG NO. 78
MARCH 1, 1982
PRICES SUBJECT TO CHANGE WITHOUT NOTICE
Illustrations are actual size.

IMPORTANT

The Handy & Harman quote will be used as a guide to establish the range in which we will operate daily.

To the right of each price column, there is a column labeled G.A. This column indicates the gold adjustment per $5.00 change in the price of fine gold.

All prices and adjustments are keystone. Base prices are for a fine gold market of $395.01—$400.00 per ounce. Gold adjustments will be as follows:

Etc.	380.01-385.00	385.01-390.00	390.01-395.00	395.01-$400.00	400.01-405.00	405.01-410.00	410.01-415.00	Etc.
—	—3	—2	—1	NONE	+1	+2	+3	+

EXAMPLE: Style #105H on Page 3 is listed at $280.50 in 10K gold (Keystone) and a G.A. of $2.55 with fine gold in the $395.01-$400.00 range. If gold should advance to the $405.01-$410.00 range, add $5.10 (two units of the G.A.) for a total price of $285.60 (Keystone). If gold should decrease to the $390.01-$395.00 range, deduct $2.55 (one unit of the G.A.) for a total price of $277.95 (Keystone).

IMPORTANT

The Handy & Harman quote will be used as a guide to establish the range in which we will operate daily.

To the right of each price column, there is a column labeled G.A. This column indicates the gold adjustment per $5.00 change in the price of fine gold.

All prices and adjustments are keystone. Base prices are for a fine gold market of $395.01–$400.00 per ounce. Gold adjustments will be as follows:

Etc.	380.01-385.00	385.01-390.00	390.01-395.00	395.01-$400.00	400.01-405.00	405.01-410.00	410.01-415.00	Etc.
–	–3	–2	–1	NONE	+1	+2	+3	+

EXAMPLE: Style #105H on Page 3 is listed at $280.50 in 10K gold (Keystone) and a G.A. of $2.55 with fine gold in the $395.01-$400.00 range. If gold should advance to the $405.01-$410.00 range, add $5.10 (two units of the G.A.) for a total price of $285.60 (Keystone). If gold should decrease to the $390.01-$395.00 range, deduct $2.55 (one unit of the G.A.) for a total price of $277.95 (Keystone).

Fraternal And Emblematic Jewelry

By Sol Scharf

Fraternal Societies have been in existence since antiquity. Throughout the centuries mankind has adhered to Secret and Fraternal Orders. These societies were known among the ancient Greeks and they are mentioned by Aristophanes and other classical writers. Even during the dark period of medieval Europe there existed societies.

Some Fraternal Orders are outgrowths of the Guilds of these days and are still in existence. One of the better known orders is the Masons, originally founded approximately in the tenth century by craftsmen who built Churches and Cathedrals. These masons, desirous of safeguarding their craft and knowledge, adopted secret signs, pins, emblems and rings in order to be able to recognize each other. The masons employed for their emblem the tools of their trade and these symbols are still utilized.

In America, as well as all other parts of the world, there are many fraternal orders whose membership is not limited to specific crafts or tradesmen only, but rather to anyone who qualifies for the high moral and ethical concepts of the organization.

The object of these fraternal orders is to unite their members in a beneficiary society, some paying sick and funeral benefits. They are founded to furnish an organization affording its members the advantages of brotherhood. The more important fraternal orders in the United States include: Benefit societies, Mutual assessment societies, Cooperative and Educational, Social and Recreative, Mythical and Theosophical. Among the better known in America are the Order of Masons, Shriners, Odd Fellows, Elks, Moose, Knights of Columbus, Knights of Pythias, and many others. There are over 20,000,000 members in the various fraternal orders in the United States. This does not include the numerous members of the collegiate fraternities having chapters at the colleges throughout the country.

All these organizations utilize various forms of EMBLEMATIC JEWELRY and the Jewelry Trade benefits greatly thereby. Over the years a high degree of artisanship in producing jewelry for the different fraternal orders has been developed. Many of these orders have elaborate pins and rings. As the member advances through the various stages of the organization, different symbols denoting the degree of his increasing stature are added.

The quantity of jewelry used by these various societies is considerable. The fraternal orders utilize in many instances fine gold and platinum emblematic jewelry, set with diamonds and precious stones.

This is a big field to be cultivated by the wholesale and retail jeweler of every town, village and hamlet throughout the United States. The first step toward a complete understanding of Emblematic Jewelry is to contact a reputable EMBLEMATIC JEWELRY MANUFACTURER who will be pleased to assist you and give you all information you may require to successfully sell to this specialized field.

GENERAL INFORMATION

All of the emblems illustrated in this catalog are die struck.

The great majority of rings illustrated in this catalog are die stamped which offers the following advantages over cast rings:

1. no porosity
2. will not crack in sizing
3. security in diamond setting
4. rings receive and retain a high polishing

Ring orders must specify finger size required or a stock size will be supplied. The maximum standard size is a size eight for a ladies ring and size eleven for a gents ring. An additional charge will apply for rings larger than these.

The items shown herein are sold only as finished items. We do not supply flats, trims, blanks, or ornaments.

All lapel buttons illustrated in this catalog are made with base metal lapel tacks and high quality grips. Threaded posts or tie tack attachments are available upon request.

Diamond settings used in all of our rings are palladium,thereby offering non-yellowing characteristics and high security for diamonds.

All illustrations herein contained.are actual size and the information beneath each photograph advises whether emblems other than those shown are available in a particular style.

When ordering kindly give complete style number as it appears in this catalog and also the page number on which the item is illustrated.

We offer a repair service on emblematic jewelry to our regular accounts only. In the event we have to return an item as unrepairable or an estimate of repair is rejected we reserve the right to charge for return shipping and insurance.

A complete numerical index of the items appearing in this book will be found at the back of this book.

Federal Supplemental Schedules and Finding Aids

- 1820 Manufacturers - Was to include those who made more than $500/year. Actually includes many smaller businesses. M279, rent from FHL, buy from National Archives (Scholarly Resources). Incomplete.

  Ex: David Patton, Shelbyville, Bedford Co, TN: cabinetmaker, used walnut, cherry, poplar planks to make bureaus, "cabboards," tables of all kinds. Tools cost $100. Made about $200/year. "this is tolerable good business but sales is not fast."

- 1832 Manufacturers - To determine effects of foreign competition & tariffs on US industry. House Doc.308 (21Cong-1 Sess), Serial 222 (ME, NH, VT, RI, CT)-223 (NY, NJ, PA, DE, OH). Same kind of info. In libraries, especially universities, which have the Serial Set. Houston area: UH main campus, UH Clear Lake campus, Rice, Houston Public Library downtown.

- 1850-1860 Slave Schedules - Separate from general population schedules [except 1850 DE and DC which are attached to population schedules]. Coverage: AL, AR [1860 includes Oklahoma as Indian Lands west of Arkansas], DC, DE, FL, GA, KY, LA, MD, MO, MS, NC, NJ (1850), SC, TN, TX, VA. Clayton has all on microfilm.

- Croom's name

- 1850–1880 AIMS Schedules: A=Agriculture I=Industry M=Mortality S=Social Statistics

  Agriculture (an example)

  W.W. Chapman, Washington Co, Oregon Territory, 1850, had 2 horses, 45 milch cows, 2 oxen. Grew 100 bushels Irish potatoes, made 200 lbs butter in previous year.

  Census Day - 1790-1820 first Mon in Aug. 1830-1900 June 1. 1910-Apr 15. 1920-Jan 1

  Previous year here would have been 1 June 1849-1 June 1850.

  Industry (an example)

  Wm Williams, Polk Co, Oregon Terr., 1850: owned sawmill, operated with water power, milled 2880 logs valued at $3500. Employed 4 men at wages of $100/mo total. 1849, mill produced 720,000 ft lumber valued at $28,800.

  Mortality

  Persons who died during census year (June 1, 1849-June 1, 1850, etc).

  Example from 1860: Charles Quail, Clarke Co, WA: age 32, b Hamburg, md, saloon keeper, d May, 1860, 2¼ months ill, cause of death was "mortification" ("final mortifying cause" was wounds received during Indian wars).

  Example from McLennan Co, TX, 1870: 39 kids, 11 adults d of measles in 1869–70.

  Example from Jasper Co, MS, 1850: deaths largely from scarlet fever.

  These persons were not to be included on census schedule, but some were. Not all deaths were reported, just as not all living people were on the census.

Social Statistics

Data on schools, churches, libraries, newspapers, paupers, wages in each locality/community. Examples: (1) 1850 drought cut corn crop in Hillsborough Co, FL in half. (2) 1870, ID, carpenter in Ada Co made $6/day w/o board, but in Alturas Co carpenters made $8/day. Workers who received board made $10-15/wk less than those paid without board.

See also this kind of information on 222 cities in an 1886 publication: House Misc.Doc. 42, pt 18 (17-2) serial 2148 and pt 19, which is serial 2149. Includes Houston & Galveston.

Availability: usually state archives, state libraries, historical societies. Rental: AGLL, FHL, some state and university archives, such as Duke Univ in NC for many Southern states. Texas State Library Genealogy Section and George Memorial Library in Richmond have TX schedules on microfilm. Many mortality schedules are published. At this time, Clayton has microfilm for these:
Agriculture — Some from FL, ID, IL, NC, TN, TX, VA, WY. (43 rolls TX)
Industry — Some from FL, ID, IL, TX.
Mortality — Some from AZ, CO, DC, FL, GA, ID, IL, IA, KY, LA, MD, MA, MI, MS, MO, NC, OH, OR, SC, TN, TX, UT, VA, WA, WY.
Social Statistics — Some from FL, ID, TX, WY.

only yes

- 1880 Defective, Dependent, Delinquent Schedules (DDD)

Paupers, prisoners, deaf, blind, indigent, insane, homeless children. Taken from population schedule, with additional info. Purpose: to identify these people and learn more about their situations. Available for most states.

Examples from Hardeman Co, TN: (1) Ben Oppenheimer of Bolivar, deaf since age 3 due to scarlet fever. Lived 3 years at Kentucky State Mute Asylum, til 1855. (2) William Burnette, insane. Enumerator remarks: "I cannot learn any thing in reference to the above named person only that he was of sound mind up to the Shiloh Battle in April 1862 but soon after said battle he became insane and has been so ever since. He is in good health and lives with his brother George L. Burnette. He is a married man but his wife left him after he became insane. no physician has ever examined him; it is believed that he was so frightened that he became insane."

Availability: same as AIMS schedules. At this time, Clayton has some for ID, TN, TX, WY.

- 1880-1920 Soundex

1880 - Only families with children under ten included. All states.
1900, 1920 - "All" families, all states.
1910 - Only 21 states: AL, AR, CA, FL, GA, IL, KS, KY, LA, MI, MO, MS, NC, OH, OK, PA, SC, TN, TX, VA, WV. (Some of these are Soundex; some are Miracode.)

(page #s) (family #s)

Clayton has all that are available 1880-1910 and with help from Clayton Library Friends is greatly increasing the 1920 holdings.

1920 Index AZ, FL, GA, RI, SC, SD, TN, Guam
Not included!

- 1880–1920 Index to Institutions

  Which? fire stations, religious houses, schools of all kinds, hospitals and institutional homes of all kinds, jails, poorhouses, college dorms, military posts, ships in port, mines, RR and timber camps.
  1880, 1920 at end of last roll of Soundex for each state. 1920 does not cover all states, all but 7.
  1900, separate set of film, alpha by state + territories. Includes *NR* Soundex cards (not reported or indecipherable surnames).
  1910 only for AL, LA, MS, SC, TN, TX. See end of last Soundex roll.
  Clayton has all of these on microfilm.

- 1885 Federal-state census: CO, Dakota Territory, FL, NE, NM

  At this time, Clayton has books of SD mortality and census and FL index. (None on microfilm.)

- 1890 Union Veterans and Widows - Available for DC, LA-WY, fragments from CA-KY. Confederates?

  Listed by state & supervisor district & county. Clayton has this on microfilm.
  Examples: (1) Beaverhead Co, MT, Henry Wills, alias Charles Wright, Pvt, Co B, 1 Kansas Inf, leg wound. (2) Beaverhead Co, MT, Eviton J. Conger, Col, 1 DC Cav, 4 years, helped capture assassin Booth. (3) Gonzales Co, TX, 3 privates, Co C, 9 KY Cav: Rufus Foster, Lawyer Franklin, Charley Hill.

- 1900 Special Indian Inquiries, for Indians on or off reservations. Indians living in non-Indian families to be enumerated on general population schedule. White or Negroes living in Indian families to be enumerated on Indian schedule as members of Indian families. Regular census information plus tribe, tribe of parents, citizenship, Indian name, fixed or movable dwelling, etc. These are usually attached to returns from county of residence.

- 1900–1910 Enumeration District Descriptions

  T1224 has 1830 forward, except 1900 [T1210]. Clayton has 1900-1910. Most helpful when using city census records and need to narrow search to a ward or neighborhood.

- 1900-1920 Military/Naval censuses. Domestic lists with general population. Overseas posts or ships are separate schedules. 1900, 1920 soundexed. 1920, Consular service with military.

  Posts & ships appear in index to institutions. Individuals appear in Soundex. Clayton has on film.

- 1910 Cross Index to Selected City Streets (49 cities)

  M 1283. Look up street address, it gives you E.D. number. [City directories for addresses.]
  Clayton has this on microfilm. Especially useful since 1910 census is not fully soundexed, but some of these cities are in the Soundexed states. Only Texas city = San Antonio.
  Cities available: Akron, Atlanta, Augusta. Birmingham, Baltimore, Brooklyn, Bronx. Canton, Cleveland, Charlotte, Chicago. District of Columbia, Denver, Detroit, Dayton. Elizabeth NJ, Erie. Fort Wayne. Gary, Grand Rapids. Indianapolis. Kansas City. Long Beach, Los Angeles. Manhattan, Macon, Mobile, Montgomery. Newark NJ, NYC. Oklahoma City, Omaha. Patterson NJ, Phoenix, Peoria, Philadelphia. Reading, Richmond NY & VA. Seattle, Savannah, San Antonio, San Diego, San Francisco, South Bend. Tulsa, Tampa. Wichita. Youngstown.

1850 Census of United States

This census gives the names of persons in the household, age, occupation, and the State or County in which they were born.

1860 and 1870 Census of the United States

These two censuses gave about the same information as the 1850 census.

1880 Census of United States

This census gives the names and birth places of each member of the household. The birthplace of each parent is given and also the relationship of each member of the household to the head of the family.

Key: dash "-" signifies "under". Example: "10-15" means from 10 years to <u>under</u> 15 years

RELATIONSHIP CHART

By W. Henry Chace

This diagram illustrates the method and terminology used in determining kinship as officially approved by the Genealogical Society of the Church of Jesus Christ of Latter-day Saints. Two designations are given for each progenitor and each descendant of the family representative as well as for the brothers (and sisters) of one's progenitors. The listings in parentheses show the relationship from the family representative to the relative at that point as called for on the family group sheet, while the other listing designates the relationship of the relative to the family representative.

Since cousin kinship is the same whether from the family representative to the cousin or from the cousin to the family representative, no parentheses are shown.

ABBREVIATIONS: G—Grand; G G—Great-grand; UNC—Uncle; NEP—Nephew; C—Cousin; R—Removed.

DETERMINING RELATIONSHIP

The chart shown on the reverse side is especially designed so that the beginner, as well as the more experienced genealogical researcher, can quickly compute the degree of relationship from the family representative to any of his relatives.

Blood relationship is divided into lineal and collateral relatives. Lineal relatives exist between persons, one of whom is descended from the other. Collateral relatives exist between two persons who are in different lines of descent from a common progenitor. A collateral line includes all lines other than the line through which you descend. One's grandparent, parent, himself, his child or grandchild, is a direct line, while one's uncles, aunts, brothers, sisters, cousins, nephews, and nieces are related to him collaterally.

To assist one in determining relationship to any relative without the use of a chart, the following explanation is given:

PROGENITORS: If your own name is listed as family representative, you are a son (son) or daughter (dau) to your parents; a grandson (g son) to your grandparents; a great-grandson (g g son) to your great grandparents; and a second great-grandson (2 g g son) to your second great-grandparents.

BROTHERS AND SISTERS OF YOUR PROGENITORS: You are a nephew (nep) or niece (niece) to your parents' brothers and sisters; a grandnephew (g nep) to your grandparents' brothers and sisters; a great-grandnephew (g g nep) to your great-grandparents' brothers and sisters; and a second great-grandnephew (2 g g nep) to your second great-grandparents' brothers and sisters.

COUSINS: In determining the cousin relationship to any descendant of your uncles and aunts in any degree, these steps should be followed:

Step 1: Children of brothers are first cousins (1cou) to each other; children of first cousins are second cousins (2cou) to each other; children of second cousins are third cousins (3cou) to each other; children of third cousins are fourth cousins (4cou) to each other, etc. In other words persons sharing the same grandparents are first cousins (1cou) to each other; those sharing the same great-grandparents are second cousins (2cou) to each other; if they share the same second great-grandparents, they are third cousins (3cou) to each other. Especially note that you and your cousin in any degree are both an equal number of generations from the common ancestor or from the point where your lines converge.

Step 2: Descendants of cousins in any degree are also that same degree of cousin relationship to you. They are, however, designated in addition as "removed" according to the number of generations that they are descended from that cousin.

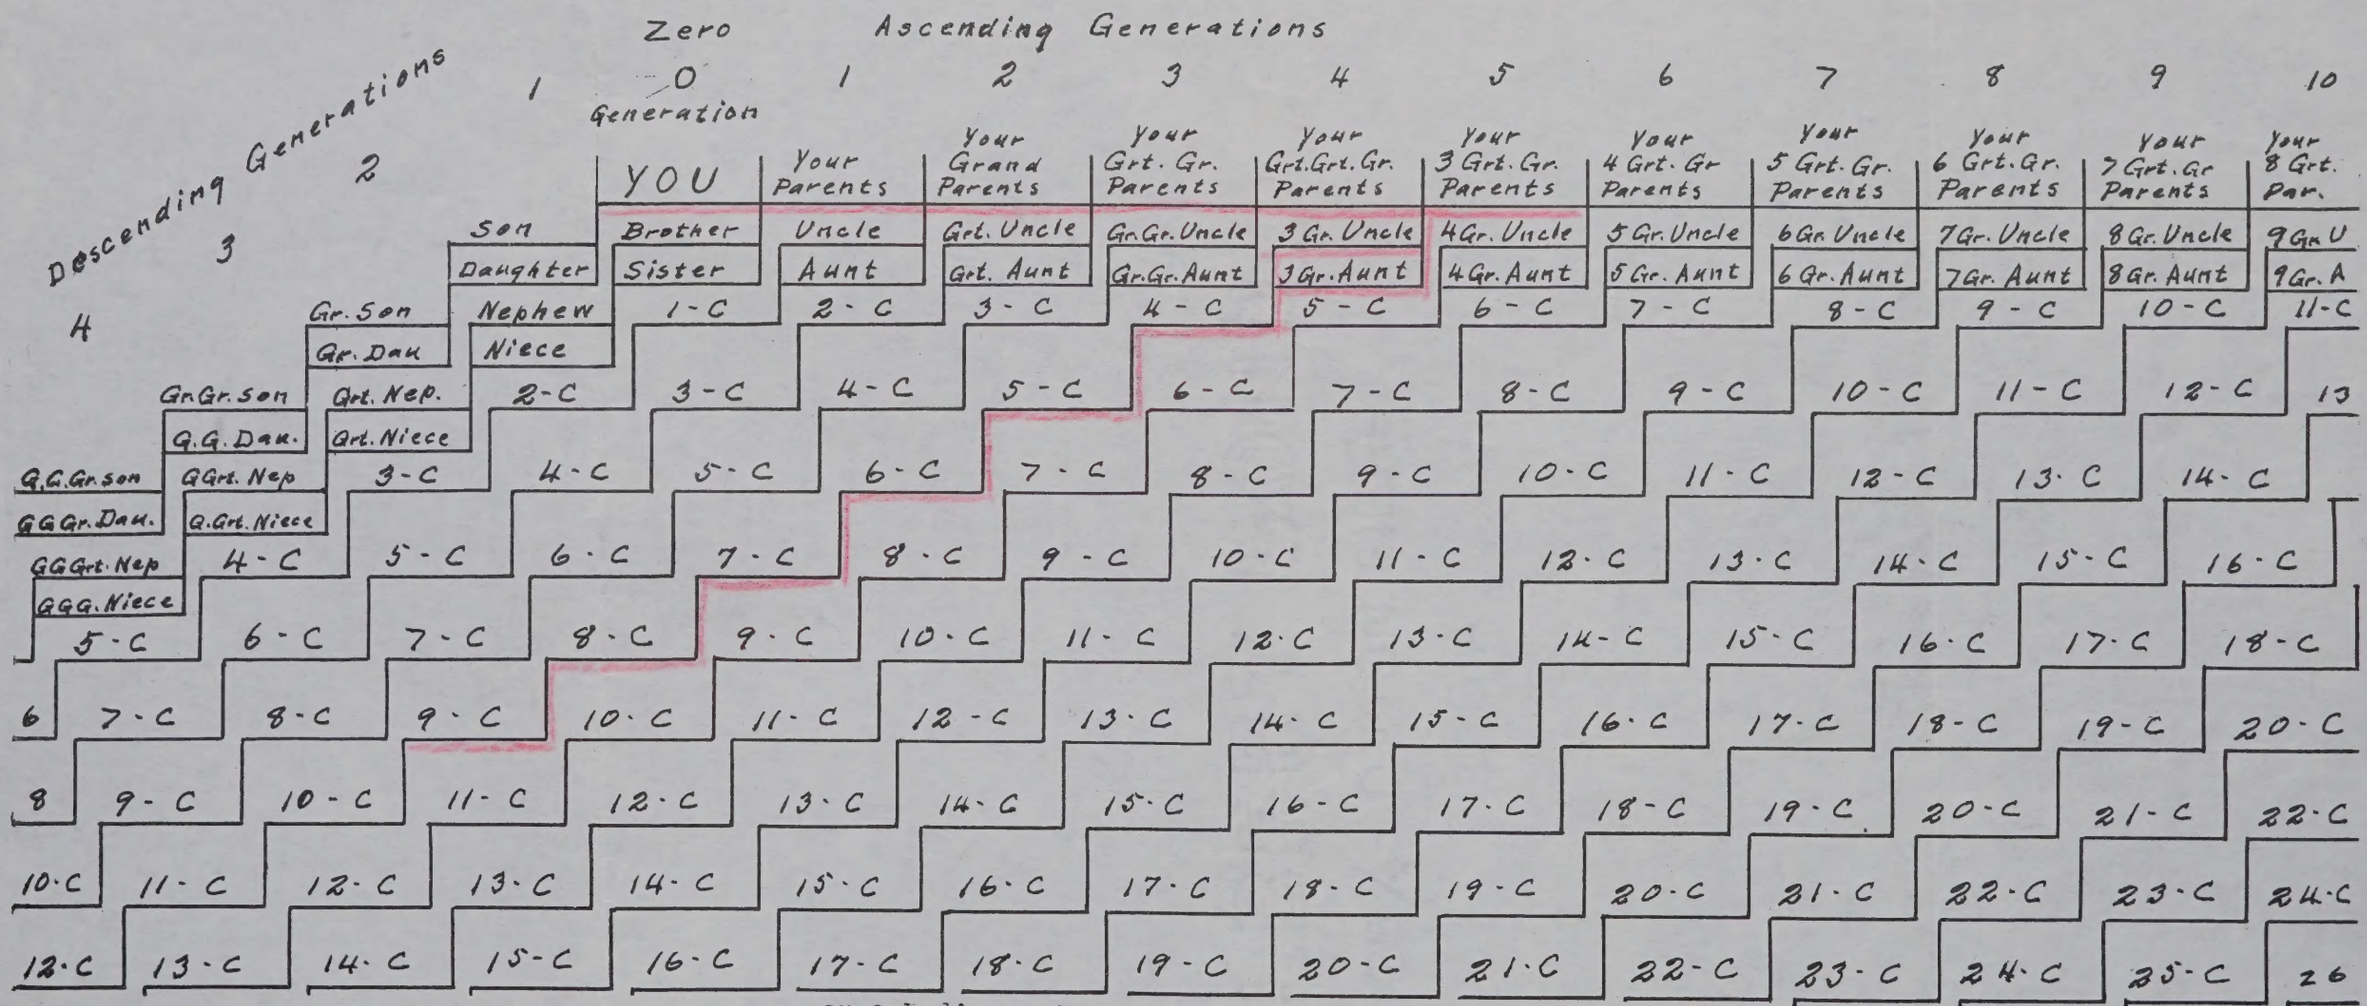
Examples are as follows: A child of your first cousin is a first cousin to you, but is designated as a first cousin once removed (1c1r); a grandchild is a first cousin twice removed (1c2r), and a great-grandchild is a first cousin three times removed (1c3r), etc. To your second cousin's children you are a second cousin once removed (2c1r); to the grandchildren of your second cousin you are a second cousin twice removed (2c2r). To the children of your fifth cousin you are a fifth cousin once removed (5c1r), and to his grandchildren you are a fifth cousin twice removed (5c2r).

Step 3: A cousin in any degree to any of your progenitors is also that same degree of cousin relationship to you, but you are designated in addition as "removed" according to the number of generations that you are removed or descended from that progenitor.

The following are examples: To your father's cousin you are a first cousin once removed (1c1r); to your father's second cousin you are a second cousin once removed (2c1r); to your father's sixth cousin you are a sixth cousin once removed (6c1r). A first cousin of your fourth great-grandfather is also your first cousin; you are, however, a first cousin six times removed (1c6r), since you are six generations removed from your fourth great-grandfather.

When listing the relationship on the one family group record, a clear distinction should be made between blood kindred and those to whom they are married. The latter are known as "in-laws"; thus, the family representative is a nephew-in-law (nep il) to his uncle's wife, a first cousin-in-law (1cou il) to his cousin's wife, etc.

Printed in the U.S.A.



Relationship Chart, devised by Warren Farmer Wilhite, (in 1950) 1307 E.Kiehl Ave.Sylvan Hills, North Little Rock, Arkansas.

Two persons having a common ancestor may determin their exact degree of relationship by the following method.

Go back on your straight line to the common ancestor;then come forward on the line of the second person, like on a Pedigree Chart, the place you stop on will indicate the relationship.

MALACHI 4:5& 6.Behold, I will send you Elijah the prophet before the coming of the great and dreadful day of the Lord; and he shall turn the heart of the fathers to the children, and the heart of the children to their fathers, lest I come and smite the earth with a curse.

D.& C. Sec.2. Behold, I will reveal unto you the Priesthood, by the hand of Elijah the prophet, before the coming of the great and dreadful day of the Lord. And he shall plant in the hearts of the children the promises made to the fathers, and the hearts of the children shall turn to their fathers. If it were not so, the whole earth would be utterly wasted at his coming.

RELATIONSHIPS

There are at least two accepted ways of figuring relationships. One is called the Common or Canon Law method, and the other the Civil Law method. Both agree when figuring the direct or lineal descent. They differ only in figuring the collateral relationships. As the Common or Canon Law method is now in general use and gives a more accurate description of "cousin relationship," we will not consider the Civil Law method, but present for your use a chart, especially prepared for this publication, which shows (according to the Common or Canon Law), the relationship of descendants to a progenitor to the tenth generation. Also the relationship between his descendants, in any combination of degrees from him, down to and including the tenth generation.

How to use relationship chart

You will note that the two upper columns are outlined in heavy lines. These are the common progenitor and his descendants. "CP" stands for common progenitor, the one who is the head of the two lines of descendants. "S" is his son or daughter as the case may be; "GS" his grandson or granddaughter; "GGS" his great grandson or granddaughter;"2GGS" his second great grandson or granddaughter,and so on down to his eighth great grandson or granddaughter.

All the diamonds inside these heavy lines show the relationship between his descendants. By following columns "1" from both sides of the chart we find they cross on the "B" diamond, showing that the sons of the common progenitor are brothers. By following columns "2" to the center we find they cross at the "1C" diamond, indicating that grandsons of the common progenitor are first cousins to each other. And so on down: his great grandsons are second cousins; his second great grandsons are third cousins; his third great grandsons are fourth cousins, etc.

To this point few people have trouble in figuring relationships. It is when they start to figure the "cousinship" and "times removed" that they have difficulty. But with this chart you will find no trouble with any combination up to the tenth generation, and by following the pattern set by this chart you can go as many generations as you desire. Say you want to figure your relationship to a distant cousin. You are eight generations removed from the common progenitor, or his sixth great grandson. Your "distant cousin" is six generations removed or his fourth great grandson on another line. To figure your exact relationship simply follow columns "8" on the one side and "6" on the other to where they cross and you find "5C 2R" indicating you are fifth cousins twice removed.

If you want to find your relationship to the son of your fifth great grandfather, follow columns "1" and "7" which show you are his fourth great grandnephew (4 GGN). Likewise, you are a first cousin six times removed (1C 6R) to the grandson of your sixth great grandfather.

This method of figuring relationships is in general use by most courts of the country and was recently adopted for use of the patrons of the Genealogical Society of the Church of Jesus Christ of Latter-day Saints.

As additional aids to understanding terms used in relationship descriptions we give the following:

The parents of your father or mother are your grandfather and grandmother and you are a grandson to them. (GS)

The parents of your grandfather or grandmother are your great grandparents and you are a great grandson to them. (GGS)

The parents of your great grandmother or great grandfather are your second great grandparents and you are a second great grandson to them, etc. etc., (2GGS)

The children of your brothers and sisters are your nephews and nieces (N) and you are uncle or aunt to them.

The children of your nieces and nephews are your grandnieces or grandnephews (GN) and you are granduncle to them.

The children of your grandnephews and grandnieces are your great grandnephews or great grandnieces (GGN) and you are great granduncle to them.

Your father's brother or sister is your uncle or aunt and you are a nephew or niece to them. (N)

The children of your uncle or aunt are your first cousins and you are also their first cousin. (1C)

The children of your first cousins are first cousins once removed to you and you are the same to them. (1C 1R)

The son of your third great grandfather is your second great granduncle and you are a second great grandnephew or niece to him.

The children of your second cousins are your second cousins once removed and you are the same to them.

The grandchildren of your second cousins are your second cousins twice removed and you are the same to them.

The great grandchildren of your second cousins are your second cousins thrice removed and you are the same to them.

The second great grandchildren of your second cousins are your second cousins four times removed and you are the same to them.

A simple formula for figuring cousin relationships by the above method is this: Call the common ancestor "O" and count down to the subjects; subtract one from the smaller of the two figures - this is the cousin relationship. Then subtract the smaller number from the larger and this gives you the times removed. Example: one subject is seven steps down from the common ancestor, the other is four steps down - one from four is three, so the cousinship is third cousins, and four from seven is three (three times removed) making them third cousins three times removed (3C 3R).

Another example: Subject No. 1 is 9 steps down from the common ancestor. Subject No. 2 is 6 steps down from the common ancestor. 6 - 1 = 5th cousin. 9 - 6 = 3 times removed. So they are fifth cousins three times removed. (5C 3R).

Of course, if the steps down from the common ancestor are the same you simply subtract 1 from that number and it gives you their cousinship and there are no times removed to be figured. Remember also that the common ancestor is never counted when figuring the steps down to the subject, just as it appears on the chart.

Answers to problems on reverse side: 1) 5C 3R; 2) 5C 2R; 3) 7C 1R; 4) half 1C 1R; 5) step sisters; 6) 3C 1R; 7) 8GGN-i-l; 8) 4GGS.

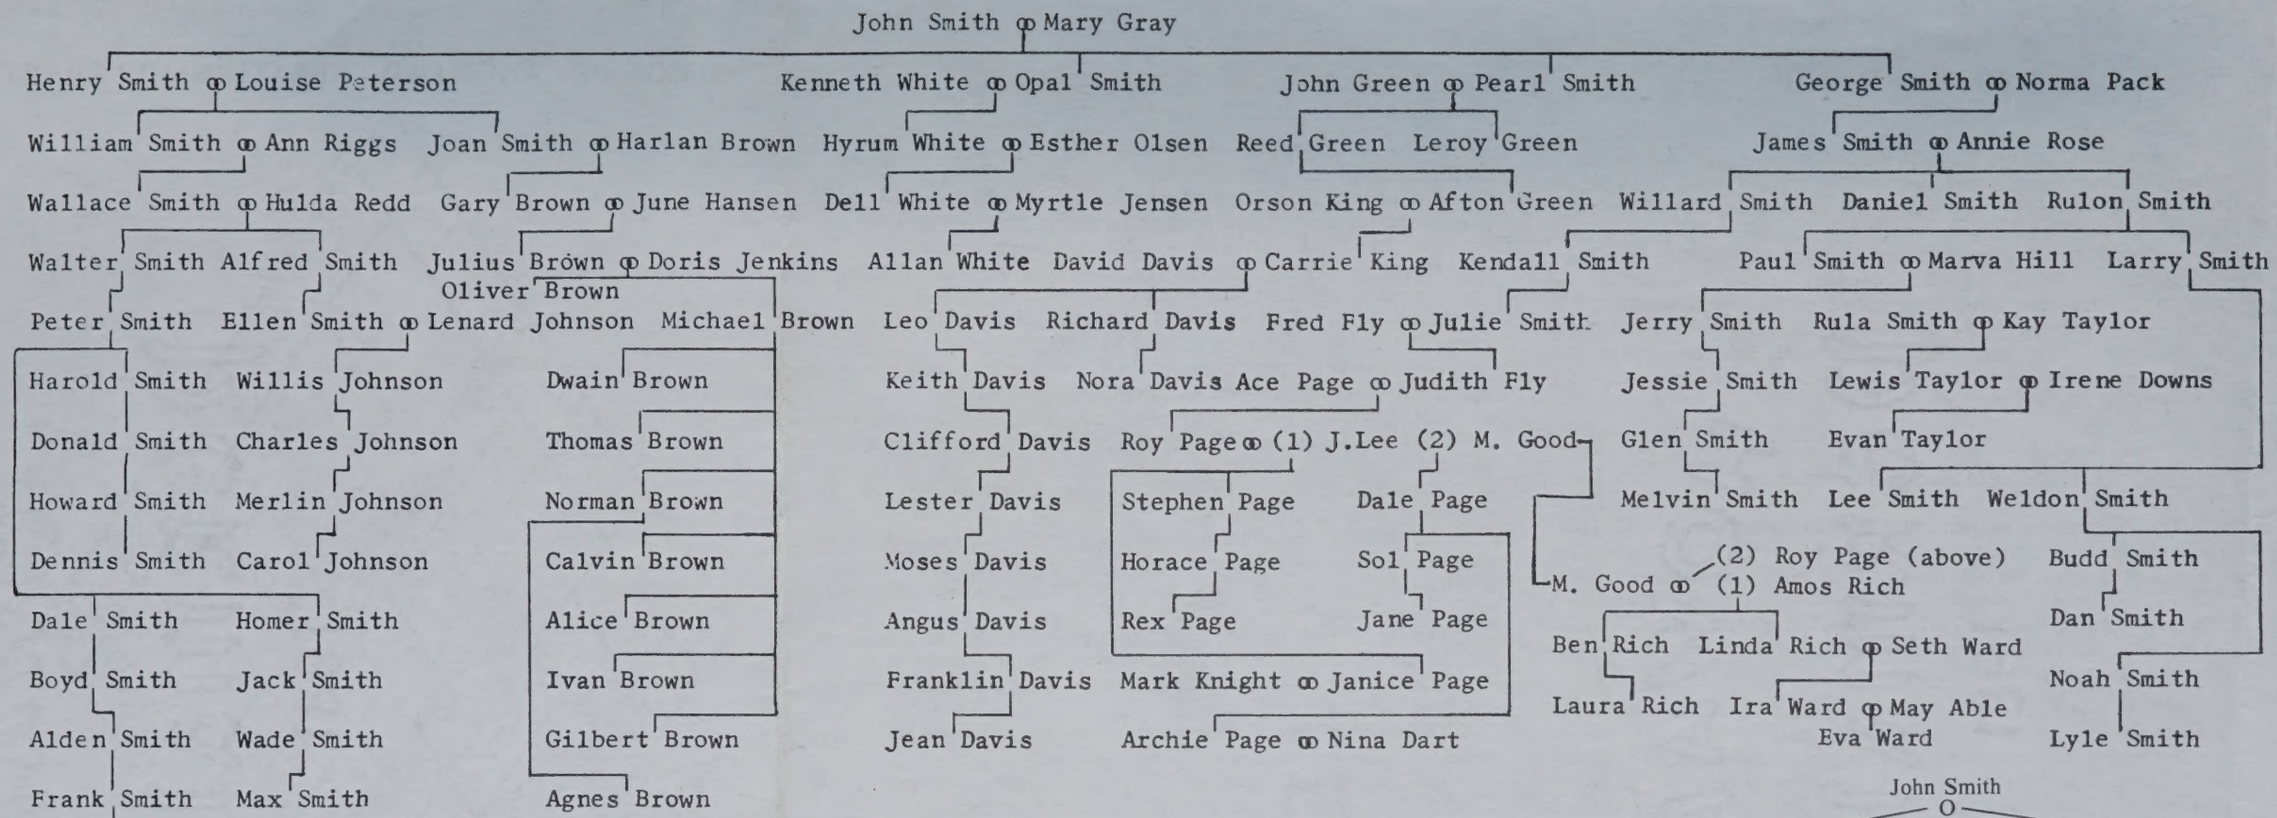
B = Brother or Sister
C = Cousin
CP = Common Progenitor
GGN = Great Grandnephew or Great Grandniece
GGS = Great Grandson or Great Granddaughter
GS = Grandson or Granddaughter
N = Nephew or Niece
R = Times removed
S = Son or daughter

From the 7th Edition of

THE HOW BOOK FOR GENEALOGISTS



This sheet has been prepared to assist in the study of relationships. Two relationship charts and one family chart are presented with complete instructions in their use, making it possible for most everyone to understand this little known art of figuring relationships between distant cousins and other relatives. A few problems are given with the answers on the reverse side. Hundreds of other problems can be formulated by a teacher. Others may wish to make up problems on their own to practice this interesting phase of genealogy.

The first question that arises in the study of the family chart above is how to figure out the lines of ascent or descent. Where a couple is shown the symbol "∞" is used to indicate their marriage and their children are indicated by lines from the symbol:

Julius Brown ∞ Doris Jenkins — Oliver Brown, Michael Brown

Fred Fly ∞ Julie Smith — Judith Fly

Where the father only is shown, a line connects to his children:

Reed Green — Afton Green

Merlin Johnson — Carol Johnson

Milton Smith — Conrad Smith

Sometimes a circuitous line is drawn because of lack of space and you will find brothers and sisters on two or more different levels, yet connected by lines to their parent:

Peter Smith — Harold Smith — Dale Smith, Homer Smith

Michael Brown, Dwain Brown, Thomas Brown, Norman Brown, Calvin Brown, Alice Brown, Ivan Brown, Gilbert Brown

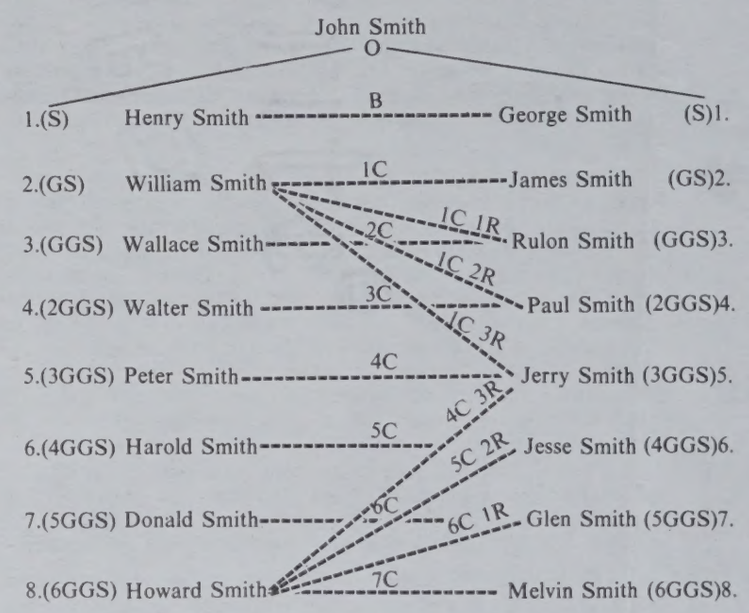
Thus Harold, Dale and Homer are sons of Peter. And Dwain to Gilbert Brown are all children of Michael, full brothers and sister. (Agnes Brown is the daughter of Norman Brown)

Another difficulty the neophyte genealogist will encounter is the problem of finding the common progenitor. Great care must be exercised in not going beyond him, as well as being sure you count each generation up to him. Counting just one step too few or too many will give you the wrong answer. In problem No. 1 below, the common progenitor is Wallace Smith as he is the first one where the lines of Conrad Smith and Carol Johnson run together. And so it is in every case - the common progenitor is always that person or couple through whom relationship springs and whose sons and/or daughters head separate lines of descendants. Henry Smith is the common progenitor in problem No. 2, and John Smith is the common progenitor in No. 3.

After finding your common progenitor, call him "O" and count down first on one line to one of your subjects, then down the other line to the other subject. By using these two figures and the relationship chart on the reverse side it is easy to tell the exact relationship between them.

Regarding the descendants of Roy Page - the sons from the first and second wives are half brothers and their children ane half first cousins and so on down. The same with the children of M. Good — Ben Rich and Dale Page are half brothers. Roy Page is the stepfather of Ben and Linda Rich, and Stephen Page is their stepbrother. Reference is seldom made to stepcousins, aunts, uncles, grandparents, etc., but these could be figured on the same basis as stepfather, mother, brother or sister.

Problems: What is the relationship between 1) Conrad Smith and Carol Johnson; 2) Agnes Brown and Max Smith; 3) Dennis Smith and Janice Page; 4) Rex Page and Sol Page; 5) Janice Page and Linda Rich; 6) Allan White and Leo Davis? 7) What is the relationship of Milton Smith to John Green; 8) Gilbert Brown to Mary Gray?



Compare with chart above and chart on reverse side.

How to use the Census Birth Year Reference Chart

(Please see other side for the census years 1790 to 1840.)

1st. Find the census year.

2nd. Find the person's age as shown in the census.

3rd. Follow the horizontal dotted lines until they intersect with the vertical numbers listed directly below the census year. This is the year in which the person was born.

(Please note, although a census was taken for the year 1890 most of it was destroyed in a fire that occurred on January 21, 1921; because of this we do not list any information for 1890.)

VOLUNTEER PARTY

October 30, 2003 was a night to remember for Clayton Library Friends Volunteers. Clayton Manager **Marje Harris** and the entire Clayton staff gave a sumptuous catered party and special "lock-in" for the CLF members who participated in the 2003 Volunteer program. The entire Clayton staff, even those on their day off came, stayed late to personally thank the 48 CLF volunteers that came.

Part of the sumptuous buffet catered by Antoine's and Domino's and the Clayton Library Staff. (Photograph courtesy of Bill Teas)

Special kudos were given to CLF Director **Alexander P. "Sandy" Scott,** CLF Volunteer Coordinator, and former CLF President **Mrs. William S. "Ginny" Toney**, the new Czarina of Clayton House volunteers for their rapid expansion and skillful management of the volunteer program.

Celebrating a Halloween theme, the Clayton staff break room was decorated and filled with catered treats from that fine Italian chain eatery on Montrose, Domino's, and giant po-boys from Antoines and a bunch of yummies prepared by the Clayton staff. There was an abundance to eat and drink while having free run of the library resources. CLF contributed $200 towards expenses to supplement the costs born by the staff.

Clayton Manager Marje Harris also had a special treat for those volunteers who could pull themselves away from the luscious banquet and do research — free copy cards were made available so attendees could make free photocopies or microcopies.

On Another Note...

This year there will be an increased demand for CLF volunteers. CLF has need for typists, people to assist new 1st Vice President Dick Warren making phone calls to renewing members, shelvers, microfilm desk, Clayton House sitting, photocopying finding aids as well as a variety of other tasks CLF needs to accomplish.

If you are interested in helping the library directly, please contact CLF Volunteer Coordinator Sandy Scott at (713) 921-0964 (home) or (713) 661-4341 (work) or email him at: sandy@3405.com. For those volunteering for Clayton House sitting, please contact Ginny Toney at (281) 493-6993 or e-mail her at: gintoney@aol.com

Aside from the catered sumptuous banquet and the free copy cards, there are other direct benefits to volunteering besides the cardio vascular benefits. For example, there is absolutely nothing like shelving to help one learn what books are in the stacks and more importantly, how to find them.

CLF Treasurer **Don Pusch** is still in dire need of someone to help him establish a list of volunteers who are eligible for grants from their current or former employers in return for volunteer hours. This person would also have to contact the different corporations to assist in the collection of the grants. If interested, please contact Don Pusch directly at (281) 326-3278 or e mail him at:pusch@ghg.net

More Revolutionary War Microfilm

Four more collections of Revolutionary War era microfilm from the U.S. National Archives are in at Clayton Library as well as another fifteen rolls of M 246, *Revolutionary War Muster Rolls*. To possess all NARA microfilms concerning the Revolutionary War era, Clayton Library needs only to purchase the following:

1. M 804, *Revolutionary War Pension and Bounty Land Warrant Application Files, 1800–1900*. **2,670 rolls ($90,780 at current NARA pricing)**.
2. M 881, *Compiled Service Records of Soldiers Who Served in the American Army During the Revolutionary War*, **1,096 rolls ($37,264 at current NARA pricing)**.
3. M 1004, *Central Treasury Records of the Continental and Confederation Governments Relating to Foreign Affairs*, **3 rolls ($102 at current NARA pricing)**.
4. M 1014, *Central Treasury Records of the Continental and Confederation Governments*, **23 rolls ($782 rolls at current NARA pricing)**.

To go along with Clayton's resources concerning the Revolutionary War, Clayton Library Friends was able to find and purchase the 11 volume definitive Spanish guide to documents in all the Spanish government archives, *Documentos relativos a la independencia de Norteamérica existentes en archivos españoles (Madrid: Ministerio de Asuntos Exteriores, Dirección General de Relaciones Culturales*, 1976–85). These volumes give precise citations for photocopy retrieval from the respective archives in Spain.

NEW STAFF AT CLAYTON

David Hardin

David Hardin, head of the genealogy section at Shreve Memorial Library in Shreveport, Louisiana has joined the Clayton staff. David brings 15 years genealogical experience as well as having worked under Lloyd Bockstruck of the genealogy section at Dallas Public Library. He first attended Kilgore College and then graduated with a BS in History from UT-Tyler. Hardin then received his MLSIS from Clayton Manager Marje Harris' alma mater, University of North Texas.

David also brings a wealth of computer skills with him. In addition to managing the genealogy section in Shreveport, he taught computer genealogy classes for Shreve Memorial Library. He has also authored several articles in genealogical publications.

David will certainly be able to assist Clayton Manager Marje Harris with speaking to local genealogical groups. He has lectured on various genealogical and historical subjects all over north Texas and north Louisiana. For example, David lectured at the 30th anniversary of the Natchitoches Genealogical and Historical Association.

Alesha Chellam, Pamela J. Clesi, and Ronald Rivas are three new Library Assistants. Alesha was born in New York City, but has spent most of her life in Houston. Alesha is a graduate student in Art History at the University of St. Thomas. Alesha began her family history studies about eight years ago. Pamela, a native Texan, was graduated in 2003 with a degree in History & Political Science from the University of St. Thomas. Ronald, a native Houstonian, is an economics major at University of Houston. Although new to genealogy, he has already become intrigued in unraveling his family history.

WHAT's New?

Santa Claus was good to Clayton Library Friends because the microfilm collection of the Panton, Lesley & Co. papers is now at Clayton. This collection consists of the account books and other records of the company for settlers/traders in early Georgia, Florida, Alabama, Mississippi, and the Florida parishes of Louisiana, from 1765 to 1810 or so.

For those wishing to use this collection, Clayton has two collection guides on the shelf that should be consulted first, *The Papers of Panton, Leslie and Co.* [Guide to the Microfilm Collection], **970.1 P198 USA** . Furthermore, Houston's Trevia Beverly has a book on the shelf concerning this collection, *Frontier Traders in the Southeastern United States: Panton, Leslie and Company and John Forbes and Company*, **975 B571 USA**.

Also, there are two books available on Inter Library Loan that researchers will want to consult. The first is by William Coker, the historian at the University of West Florida who assembled and calendared the papers. Coker's interest was both professional, as an historian, and personal, as a genealogist — Coker was also a descendant of the Spanish and British settlers of West Florida. West Florida in this context is the area bounded between the Mississippi and Apalachicola Rivers, up to the latitude of Natchez, Mississippi. These are:

1. William S. Coker and Thomas D. Watson, *Indian Traders of the Southeastern Spanish Borderlands: Panton, Leslie & Company and John Forbes & Company, 1783-1847* (Gainesville, Fla.: University Presses of Florida; Pensacola: University of West Florida Press, 1986.).
2. Leora M.Sutton, *Success Beyond Expectations: Panton Leslie Co. at Pensacola* (Pensacola, Fla.: p.p., 1991).

Coker also has two other books on the shelf at Clayton to help researchers with Spanish West Florida and the Cuban Papers. The first is William S. Coker and G. Douglas Inglis, *The Spanish Censuses of Pensacola, 1784–1820: A Genealogical Guide to Spanish Pensacola*, **975.9 S735 FLA**. The second is Regina Moreno Kirchoff Mandrell, William S. Coker, and Hazel P. Coker, *Our Family, Facts and Fancies: The Moreno and Related Families*, **929.2 M273 MORENO**.

The donors were (all given through Clayton Library Friends):

Mrs. Judy Barnett; Mr. & Mrs. Charles A. Bland; Charles L. Cunningham Jr.; Mary Lou Dawson; Ann Warner Depenbrock; Verna Redman Ekstrom; the Houston Colony of Magna Charta Dames; Mrs Charlene McCall; the Houston Colony of the Society of Mayflower Descendants; the Houston Colony of the Society of Mayflower Descendants; Mr. & Mrs. Bob; Laela Jo Linder; David and Judith Perrigin; and the James Asbury Tait Chapter, United States Daughters of 1812.

EARLY GEORGIA RECORDS

Thanks to CLF member Joan Evans, Clayton Library now possesses the entire probate records collections for both Richmond and Columbia Counties in Georgia up to 1830. This represents over 40 rolls of film and has complete will indexes up to the 1960s. This film is available now on the second floor at Clayton.

TEXAS STATE LIBRARY MICROFILM

Clayton Library now has copies of all microfilm available for sale by the Texas State Library (except the *Papers of Sam Houston, Dec. 13, 1841–Dec. 9, 1844* — the film appears to be lost, and the Texas County Property Tax Records) thanks to the following memorial gifts given through Clayton Library Friends:

2 rolls, ***The Liberty Vindicator, 1925–35***; Mr. & Mrs. Clyde Deese; 3 rolls, ***Texas Confederate Military Service Records*** (rolls #1–3); Mr. and Mrs. John K. Loveless; 5 rolls, ***Texas Confederate Military Service Records*** (rolls #4–8); Mr.& Mrs. Fred Miller; 1 roll, ***The Liberty Gazette, 1855-69***; Mr. & Mrs. Pat Allen Smith; 3 rolls, ***Texas Railroad Rangers Service Records***; Mr. & Mrs. John J. Mullen; 2 rolls, ***Texas Ranger Service Records 1830–1900***; Lynne Malarkey and Mrs. Beverly Rodman; 1 roll, ***Republic of Texas Post Office Department Records***; Mr. & Mrs. Leslie P. White; and 1 roll, ***Wheat, Postmasters, and Post Offices of Texas***; Mr. & Mrs. Charles Bien.

ITAWAMBA COUNTY

Thanks to two generous memorial gifts from Helen & Thomas D. Anderson and Ben M. Anderson through CLF, Clayton Library now has the following nineteen rolls of microfilm of Itawamba County, Mississippi records:

Deed Records: Index to Deeds, vols. 1 & 2, Deeds: vols. 1–2, 1836–41; vol. 3, 1841–43; vol. 4, 1843–48; vol. 4, 1843–44; vols. 5–6, 1844–50; vol. 7, 1849–50; and vol. 8, 1850–52.

Texas Border Crossings *Continued from page 4*

Left to right: David Garza; Cris Garza, Jose Guerra, Baldemar Silva

(7 rolls), contains over 13,000 arrivals in three alphabetically arranged record series: (1) statistical and permanent manifests, July 1, 1924–July 27, 1952; (2) temporary manifests, 1924–1954; (3) applications for nonresident alien's border crossing identification cards, ca. 1945–Dec. 24, 1952.

M 1973, *Statistical Manifests of Alien Arrivals by Airplane at San Antonio, Texas, May 17, 1944–March 1952* (1 roll), contains over 3,100 alphabetically arranged records.

Clayton Library already had the following microfilm:

M 1503, *Index and Manifests of Alien Arrivals at Roma, Texas, March 1928–May 1955* (5 rolls), contains over 30,000 alien arrivals in five record series: (1) index to statistical manifests, Aug. 13, 1929–Aug. 19, 1954; (2) statistical and non-statistical manifests, Mar. 1, 1928–Nov. 30, 1929; (3) statistical manifests, Aug. 13, 1929–Aug. 19, 1954; (4) non-statistical and temporary manifests, Mar. 1, 1928–Oct. 1, 1929; and (5) non-statistical and temporary manifests, Mar. 1, 1928–May 30, 1955. Series 1, 2, 4, and 5 are alphabetically arranged, while series 3 is chronologically arranged and is indexed by series 1.

M 1754, *Nonstatistical Manifests and Statistical Index Cards of Aliens Arriving at Eagle Pass, Texas, June 1905–November 1929* (27 rolls), contains over 150,000 alphabetically arranged records. The statistical index cards serve as a finding aid to statistical manifests in M1755, rolls 1-27.

M 1755, *Permanent and Statistical Manifests of Alien Arrivals at Eagle Pass, Texas, June 1905–June 1953* (30 rolls), is chronologically arranged but is indexed by M1754 (for June 1905–Nov. 1929) and by M2040 (for Dec. 1929–June 1953).

M 1766, *Alphabetical Card Manifests of Alien Arrivals at Fort Hancock, Texas, 1924–1954* (2 rolls), contains over 4,400 arrivals in two alphabetically-arranged record series: (1) aliens admitted for temporary visits, 1924–1954, with most arrivals during 1931–1944, and (2) applications for nonresident alien's border crossing identification cards, ca. 1945–Dec. 24, 1952.

M 1770, *Indexes and Manifests of Alien Arrivals at Rio Grande City, Texas, November 1908–May 1955* (6 rolls), contains over 28,000 arrivals in seven record series: (1) index to statistical manifests, Nov. 16, 1908–Nov. 30, 1929; (2) index to statistical manifests, Dec. 1, 1929–Jan. 15, 1952; (3) statistical manifests, Nov. 16, 1908–June 28, 1926; (4) statistical manifests, July 1, 1926–Jan. 15, 1952; (5) non-statistical manifests, Mar. 22, 1916–Dec. 31, 1928; (6) non-statistical manifests, Jan. 1, 1929–June 30, 1940; and (7) non-statistical manifests, July 1, 1940-May 30, 1955. Series 1, 2, 5, 6, and 7 are alphabetically arranged. Series 3 and 4 are chronologically arranged but indexed by series 1 and 2.

M 1771, *Alphabetical Manifests of Non-Mexican Aliens Granted Temporary Admission at Laredo, Texas, December 1, 1929–April 8, 1955* (5 rolls), contains over 31,000 alphabetically arranged manifests.

M 1772, *Manifests of Aliens Granted Temporary Admission at Laredo, Texas, December 1, 1929–April 8, 1955* (66 rolls), contains more than 550,000 alphabetically arranged card manifests. Some U.S. citizen arrivals and some records of exclusion of aliens are also included.

M 1851, *Index and Manifests of Alien Arrivals at Progreso/Thayer, Texas, October 1928–May 1955* (6 rolls), contains over 29,000 arrivals in three record series: (1) index to statistical manifests, Oct. 6, 1928–Nov. 19, 1952; (2) statistical manifests, Oct. 6, 1928–Nov. 19, 1952; and (3) non-statistical and temporary manifests, Oct. 1928–May 27, 1955. Series 1 and 3 are alphabetically arranged. Series 2 is chronologically arranged but indexed by series 1.

M 2008, *Lists of Aliens Arriving at Laredo, Texas, from July 1903 to June 1907, via the Mexican National Railroad or the Laredo Foot Bridge* (1 roll), contains unindexed chronologically arranged records.

M 2024, *Indexes and Manifests of Alien Arrivals at Zapata, Texas, August 1923–September 1953* (2 rolls), contains six record series: (1) index to statistical manifests, Dec. 1, 1929–June 7, 1950; (2) statistical manifests, Aug. 18, 1923–Mar. 27, 1926; (3) statistical manifests, Mar. 28, 1926–June 7, 1950; (4) non-statistical and statistical manifests, Aug. 18,1923–Nov. 30, 1929; (5) non-statistical and temporary manifests, Apr. 25, 1929–Sept. 10, 1952; and (6) applications for nonresident alien's border crossing identification cards, Apr. 29, 1945–Sept. 15, 1953. Series 1, 4, 5, and 6 are alphabetically arranged. Series 2 and 3 are chronologically arranged, but most of series 3 is indexed by series 1.

M 2040, *Index to Manifests of Permanent and Statistical Arrivals at Eagle Pass, Texas, December 1, 1929–June 1953* (2 rolls), contains over 9,300 alphabetically-arranged index cards that serve as a finding aid to statistical manifests in M1755, rolls 27-30.

M 2041, *Temporary and Non-statistical Manifests of Aliens Arriving at Eagle Pass, Texas, July 1928–June 1953* (14 rolls), contains over 111,000 arrivals in three record series: (1) July 1, 1928-Mar. 21, 1929; (2) Mar. 22, 1929-June30, 1940; and (3) July 1, 1940-June 1953. Series 1 is chronologically arranged; series 2 and 3 are alphabetically arranged.

VOLUNTEERS RECOGNIZED

Clayton Library Friends volunteers were honored by Houston Public Library Director Barbara Gubbin at a ceremony at the downtown branch of Houston Public Library. In fact, Clayton had the largest number of volunteers of any branch, including the downtown branch, in the entire HPL system. Honorees of the 50 volunteer hours awards receive a signed certificate of achievement, a HPL pocket calendar and note book, HPL book marks, and HPL note pads. Honorees of 300 volunteer hours (cumulative) awards receive in addition a HPL personalized "CLF Volunteer" name badge. Honorees of 500 volunteer hours (cumulative) awards receive a special HPL plaque. CLF director Robert de Berardinis was recognized for having the most volunteer hours in the HPL system for 2002.

Those who earned HPL 50 volunteer hour awards were (underlined names indicate the person was present at ceremony to receive award):

Don Versluys, 50 hours, 50 minutes;
George W. Wilson, 54 hours, 45 minutes;
Harry Jarvis, 55 hours, 30 minutes;
Betsy Pusey, 56 hours 15 minutes;
Florence H. Parks, 60 hours, 30 minutes;
Eva J. Cunningham, 61 hours 15 minutes;
Norma Holley Eriksen, 66 hours, 20 minutes;
Gayle L. Workman, 81 hours;
Stephanie Struby, 93 hours;
Dorothy Carroll, 104 hours;
Tom Lyon, 107 hours, 15 minutes;
CLF Director Elizabeth Nitschke Hicks, 146 hours, 30 minutes.

Those who earned HPL 500 volunteer hour awards were:

CLF Director Robert de Berardinis, 1335 hours.

(Left to right) HPL Director Barbara Gubbin, CLF Director Elizabeth "Liz" Nitschke Hicks, CLF Volunteer Dorothy Carroll, CLF Director Robert de Berardinis, CLF Volunteer Florence H. Parks, CLF Volunteer George W. Wilson, and HPL Manager of Volunteer Services Marlena Mitchell.

WHAT's New?

By Robert de Berardinis

Since the last newsletter, over 1,200 rolls of microfilm and a large number of new books have arrived at Clayton Library thanks to the generous donations to Clayton Library Friends. Due to the nearly 20% decrease in the books and materials budget for Clayton Library in the City of Houston FY 2004 (ends June 30, 2004), CLF member donations, eligible for tax deductibility, become even more important.

The Hamburg Passenger lists or *Auswandererlisten* complete from 1850 to 1910 along with all the direct and indirect indexes are in the microfilm drawers. These represent all of the embarcations in the port of Hamburg for travel to the United States. Not just Germans, but immigrants traveling from Russia, Scandinavia, and central Europe can be found on these important immigration lists. There are several ways to access the passenger names on these lists and the Clayton Staff will be waiting to assist researchers.

The Louisiana Colonial Records Project microfilm is also a new addition. When the Cuban Papers, the French colonial correspondence papers (also called "the C 13" papers), the remainder of the French colonial ship passenger lists, and French colonial pension records arrive later this summer and fall, researchers of the colonial and territorial Gulf Coast, Floridas, Mississippi Valley, and Texas will have access to powerful new tools which no other library in the world has collected, including the Library of Congress.

The LCRP is in French, but Clayton Library Friends has devised a 110 page guide for accessing the documents in the collection called, *"The Official Clayton Library Friends Finding Aid for the Microform Edition of the Library of Congress' Louisiana Colonial Records Project."* The CLF guide includes a list to a number of translated documents found in the LCRP to assist the French-challenged. It also has a reel-by-reel calendar of contents as well as brief English language summaries of the documents or maps on each reel. Additionally, there is a list of published articles (available at Clayton) that show researchers how to use this series.

Among the documents are the *état civils* or abstracted copies of baptisms, marriages, and funerals for New Orleans, Biloxi, and Illinois. There is a 64 page summary of passengers sent to the province of Louisiana from Lorient by the Company of the Indies from 1717–1724. About 1/3rd of the muster rolls and pay lists for the colonial troops are also contained in the collection. The military records are

indexed and the index is available at Clayton (France's Forgotten Legion).

The Galveston passenger lists, 1896–1951, have also arrived. The original film that Clayton had was of a very poor quality and incomplete. The new National Archives film is legible and complete. Another immigration set, *the Soundex Card Manifests of Aliens Arriving Hogansburg, Malone, Morristown, Nyando, Ogdensburg, Rooseveltown, and Waddington, New York, July 1929–April 1965, is also in.*

The complete set of territorial censuses, 1836, 1838, 1842, and 1846, for Wisconsin as well as the state censuses of 1855, 1875, 1885, and 1895 are available for researchers. The 1885 census of the Territory of New Mexico is another acquisition. This, like the Galveston passenger lists, replaces an early filming of a very poor quality.

Rounding out Clayton's census collection are the 1860 Virginia Census, Slave and Mortality Schedules, 1850–1880 Censuses, New Jersey Mortality Schedules, and thanks to a contribution from Emily Croom, the 1810 New York Census Manufacturing Schedule.

For those researching immigrants into Philadelphia or those immigrating to eastern Pennsylvania, Clayton now has the Index to Naturalizations from the Eastern District for Pennsylvania, 1795–1951. Photocopies of the underlying documents made from microfilm may be ordered from the National Archives sub-depot in New York City or the National Archives themselves.

1930 CENSUS REPORT

All 1930 census microfilm donations placed before April 1, 2003, almost 400 reels, are in the microfilm drawers, although it only took the National Archives four attempts this year to get the order correct. The states of Alabama, Mississippi, Pennsylvania, and Tennessee are complete and in the drawer.

Thanks to a very generous donation by an anonymous CLF member who recently retired from NASA and moved to Georgetown, the states of Kansas and Alaska are now fully subscribed and ordered. The remainder of the microfilm, 14 reels, needed to complete Kentucky have also been subscribed and ordered and should be at Clayton by newsletter time.

As of press time for this issue of *The CLF Newsletter*, the following states and territories are completed for the 1930 census (underlined states mean the microfilm is at Clayton):

Alabama, Alaska, Arizona, Arkansas, Hawaii, Kansas, Kentucky, Louisiana, Maryland, Mississippi, Nevada, New Mexico, New York, Oklahoma, Panama Canal Zone, Pennsylvania, Tennessee, Vermont, West Virginia, and Wyoming.

All three sets of 1930 3ensus finding aids are at Clayton along with completed sets of 1930 Soundex for Arkansas, Louisiana, and West Virginia. Luckily, several on-line genealogy sites have indexes for the 1930 census to assist researchers.

Late Arrival from Ontario, Canada!

Thanks to a contribution from Dr. Frances Arrighi, Clayton Library received the first three rolls of the thirty-six roll set of Ontario Immigration Office Records (RG 11) microfilm. The first four reels of film are also called the "Hawke Papers" for A.B. Hawke, the first emigration official for Upper Canada (Ontario). They contain his letter books, hospital registers, Irish Potato Famine entrants, plus British widows and orphans. Previously, this film was only available from Columbia University. The Ontario Provincial Archives recently purchased these records and now have made them available.

With this gift, Clayton Manager Marje Harris asked CLF to purchase the remaining thirty-three rolls, which was done immediately. The film was delivered right at press time and should be available at the time members receive this newsletter. For more detail about these records, see the Province of Ontario Web site at:

http://www.archives.gov.on.ca/english/interloan/i-immigration-t.htm

The complete list of the records is as follows:

RG 11-1, MS 690911, Chief Emigrant Agent's Letter Book;

RG 11-2, MS 6912, Kingston Agent's Letter Book;

RG 11-3, MS 6913, Toronto Office, assisted immigration registers;

RG 11-4, MS 6914, Toronto Office, arrival registers;

RG 11-5, MS 6915, Toronto Office, financial records;

RG 11-6, MS 6916, Toronto, hospital records of immigrants (184748);

RG 11-7, MS 6917, 1875 and 1888 children reports;

The remaining reels are Department of Immigration formal records, 18691901:

RG 11-10, MS 847, Reel 1, Passage Bonus Receipts, 187375;

RG 11-23, MS 847, Reels 15, Applications for Refund Bonus, 187278;

RG 11-25, MS 847, Reel 5, Passage Warrants Applications, 187288;

RG 11-17, MS 847, Reels 68, Arrival Records, 18621881;

RG 11-20, MS 847, Reel 8, Miscellaneous records, 18691896;

RG 11-18, MS 847, Reel 8, Bonus Certificates, 187274;

RG 11-14, MS 847, Reel 8, Refund Bonus Lists, 187275;

RG 11-8-1, MS 847, Reels 921, Numbered Correspondence;

RG 11-8-2, MS 847, Reel 22, Unnumbered Correspondence;

RG 16, MS 847, Reel 23, Assisted Passage Certificates, 187273;

RG 11-22, MS 847, Reels 2327, Refind Bonus Certificates, 187374; and

RG 11-24, MS 847, Reel 27, Six Dollar Bonus Certificates, 1875.

CHEROKEE CLASS AT CLAYTON

CLF Volunteer and Cherokee Nation certified researcher Marjorie "Marj" Lowe brought her 32-student Leisure Learning Cherokee History and Genealogy class to Clayton Library on Saturday, June 28 for an introduction to using the resources of Clayton Library. Clayton Library Manager Marje Harris taught the two-hour class on the resources for census research as well as Dawes roll and related materials.

This course by Marj and her fellow Cherokee Nation certified teachers, Deborah Scott and Steve Triplett, is offered twice yearly by Leisure Learning, in January and June. There are three classes in Cherokee history and genealogy for those interested in discovering their Cherokee background, including the trip to Clayton. The course costs $35 with $5 for materials.

Native American nations have their own certification program for certifying researchers to determine eligibility for citizenship in their respective nation. The Cherokee Nation courses are taught yearly in Tahlequah, Oklahoma, by Chad Smith, an attorney in Tahlequah and newly re-elected chief of the Cherokee Nation. Those interested in learning more about the Cherokee Cultural Society should refer to the CLF list of area genealogical societies on page 8 for more information.

COLONIAL AMERICAN RESEARCH TOOLS AVAILABLE

Some powerful new tools for colonial American research can now be available from the U.K. Public Record Office/National Archives. Clayton Library Manager Marje Harris asked Clayton Library Friends to secure firm bids for these two sets of positive microfilm of the actual documents. There is not a "reel by reel" breakdown as usual, but donors' names and their memorials or testimonials will go on the box(es) of the colony that they contribute towards *(donations may be eligible for tax deductibility as CLF is a tax-exempt 501.c (3) corporation, check with your tax preparer)*.

The totals for the two microfilm collections are about $1551.52 (at an exchange rate of £1 = $1.60). The film collections are divided into two sets. The first set contains formal land grants, land patents, and land conveyances. Most of the land documents come with indexes on the film or are chronologically or alphabetically sorted. The second set contains financial accounts and miscellaneous reports. Most of the films of the second set are not available for researchers in the U.S., the same is true for the majority of films in the first set.

New England in the list below is defined as that part of New England not formally part of the established colonies at that time. East Florida is defined as modern day Florida east of the Apalachicola River (primarily St. Augustine) and southern Georgia up to the latitude of Natchez, Mississippi. West Florida is defined as the area between the Mississippi River, except Orleans, Jefferson, and St. Charles Parishes) and the Apalachicola River, from the Gulf Coast to the latitude of Natchez, Mississippi. Thus, West Florida contained the cities of Natchez, Mobile, Biloxi, Pensacola, Baton Rouge, and Pascagoula.

West Florida means Alabama & Mississippi

Of particular mention are the conveyance records of West Florida. Easily 90% of the records of colonial Mobile and southern Alabama were lost after 1905. In 2000, a small set of boxes were discovered in the cupola of the Mobile County Courthouse containing some records for the period of 1788–1798. They have now been microfilmed, but little of the voluminous documents described in *The Favrot Papers* (in the Louisiana Section at Clayton) survive. These documents cover the period of 1763–1781. Winston De Ville, FASG, has published a few of the documents from this series concerning Mobile and Natchez, but most have not been published. There is an additional guide for those documents concerning the areas contained in modern day Mississippi, Rowland's *Mississippi Provincial Archives: English Dominion*.(in the Mississippi Section at Clayton). *English Dominion* also contains selections from the colonial governors' correspondence which is not being requested by Marje Harris.

thought that Abraham's father was also named Abraham.

Quoting from my letter to Lonnie, I went onto explain about the census records, what they contained and didn't contain, according to the year...etc.

Daniel Strunk in 1800 Ashe Co., NC 16-16, w/wife and 3 ch
1810 Ashe Co., NC, D. Strunk, male column not marked!!, woman 16-26; woman 45+ and 5 ch.
1820 NC, no Daniel
1820 Whitley Co., KY, Daniel Strunk, 45+ woman 16-26; 9 ch and a mark in the column, 'Foreigners not naturalized'.
1830 Whitley Co., KY, Daniel 50-60; 10 m -20; woman 30-4-; 2 younger f.

I conjectured that Daniel Strunk probably d after 1840 census where he was 60-70 yrs old. Because of the formations of the counties, I suggested that land records in Whitley Co., might help.

Somewhere in my 'quickie' research for them, I must have decided that Mrs. Byrd's father, Jehue, might have been married twice...because I made a note on my typewritten letter, in longhand, that maybe Mrs. Byrd did not know about this and I didn't want to upset her. She was 79 yrs old, when I talked to her in '93, a mid-wife for that area for many many years. She will talk your head off, but her memories would make a wonderful book! if she is still with us. As I indicated on the phone to you, I never received a thank you or any indication that they had received the papers that I sent. Which burns me up because I did spend a lot of time on their line. But that's the way it goes!

Anyway, I did not follow up on it because the year, 1994 was medically pretty bad for my husband. The outcome was he lost his vision in one eye. He is 77. We both have been so fortunate with our health, and last year, I would just as soon forget.

I do hope that you can help with the puzzle of the Strunks. Please give me the benefit of your thinking about how our lines might connect. Our Hugh R. Strunk b Aug 1826 in NC (census) m 29 June 1845 in Jacksboro,TN Campbell Co., d 3 Jan 1902 in Whitley Co., I presume.
Hugh m Rachel Moore, dau/ John C. Moore and Jane Muncy. She was b 6 June 1827 Russell Co., KY d 13 Jan 1909 Laurel Co., KY. Jane Muncy is the dau/ Luke Muncy,Sr., Rev. War soldier(my friend is big on joining all the heritage societies). Haven't quite proven with a record that she is the Jane that everyone says she is, but I recently bought a copy of the Descendants of Francis Muncy I by Mary Edith Shaw, 1956 which I hope will give me the clue to the record that I would like to have.

Needless to say, I'll be doing very little in depth

researching for awhile...until I get the house back into shape but I'll be answering correspondence, of course.

Dear Don:

I hope that this finds you feeling much better. Operations are no fun, I've had one and that is enough! Time has slipped away from me because of a catastrophe that happened to us on the 9th of June.

Our hot water heater has always been in the attic...yup, you guessed it, it gave up from old age, I guess, and threw water all over the place. I'm in such a mess, I would just rather sell the house and move out!!! My Mother's dining room furniture, the water came down through the chandelier opening like a Niagara Falls, smack on the table, chairs, buffet etc. Rugs ruined,etc.

'Nuff of my woes. I did find the Abraham Strunk papers that I worked on for the people in TN. (Now I can't be sure if you told me that you were from Abraham or Absolem!!) I really just have a copy of the letter I sent after this old lady and her nephew had given me their memories.
The man, Lonnie Strunk of Alcoa, TN,37701- P>O>Box 660 was at one time, Senator Backers' pilot; he now owns some sort of plane, charter business or ??. He said; his fathers' name was Delmus Strunk, his fathers' name was Jehue, I found that he was b 13 Apr 1868 TN, m 25 Mar 1900 and d 3 Jan 1958. Jehue's father was Abraham Strunk b c1806 in NC. They gave me a Rosalie Chambers as Abraham's wife but I crossed it out, without an explanation.

Jehue's wife was Rachel M. Boshears b 18 Oct 1883 TN, d 19 Mar 1955.

I'm enclosing the 1870 Census and 1910 of Scott Co.,TN which were also in my folder. Duplicates of some that I had sent to them, I guess.

Mrs. Byrd,(Florence Strunk), Rt 1 Box 396 Pioneer, TN 37847, has a son, James L. Byrd who was the former Registrar of Deeds in Huntsville, TN and I believe that she had told me that he had done some searching through the records for the Strunks. My notes indicate that this all happened in Nov.1993.

She remembered that her great grandfather, Abraham had brothers, George, and Gideon and she also told me that she thought that Abraham's father was also named Abraham.

Quoting from my letter to Lonnie, I went onto explain about the census records, what they contained and didn't contain, according to the year...etc.

DATES - CALENDAR DAYS & DAYS OF WEEK

1. REMEMBER: Our country changed from the Julian calendar to the Gregorian (current) calendar on March 1, 1752.* The rest of the world changed about 35 years earlier.

   Thus, in all years in the U.S. prior to 1752, the first of the year (or New Year's Day) was on March 1 (not January 1.)

   When you see a date written February 10, 1749/50, this means that it was the year 1749 (old style, i.e. Julian), but in 1750 according to our modern calendar.

   When computing how long an ancestor had died before his will was probated, be sure to note calendar change in your calculations.

*In 1752, Oct. 4 was followed by Oct. 15, dropping eleven days.

2. Do you want to know what day of the week any certain event took place, such as the day of the week your ancestor died?

   Use the PERPETUAL CALENDAR in this book.

3. Here is another way, a FORMULA FOR CALCULATING THE DAY OF THE WEEK.
   Example: What Day of the week was January 10, 1946?

   a) Take the last two digits of the year — 46
   b) Add a quarter of this number, neglecting any remainder — 11
   c) Add the date in the month — 10
   d) Add, according to the month: — 1

Jan.	1	(or in leap year, 0)
Feb.	4	(or in leap year, 3)
Mar.	4	
Apr.	0	
May	2	
June	5	
July	0	
Aug.	3	
Sept.	6	
Oct.	1	
Nov.	4	
Dec.	6	

   e) Add for the 18th century — 4
      Add for the 19th century — 2
      Add for the 20th century — 0 — 0
      Add for the 21st century — 6

   f) Divide the total by 7, and the remainder gives the day of the week:

```
7)68 (9
  63
   5
```

   1-Sunday
   2-Monday
   3-Tuesday
   4-Wednesday
   5-Thursday
   6-Friday
   0-Saturday

   ANSWER: 5-Thursday

1987	Mar. 4	April 19	2007	Feb. 21	April 8
1988	Feb. 17	April 3	2008	Feb. 6	Mar. 23
1989	Feb. 8	Mar. 26	2009	Feb. 25	April 12

Easter falls on the first Sunday following the arbitrary Paschal Full Moon, which does not necessarily coincide with a real or astronomical full moon. The Paschal Full Moon is calculated by adding 1 to the remainder obtained by dividing the year by 19 and applying the following table:

1 - Apr. 14	6 - Apr. 18	11 - Mar. 25	16 - Mar. 30
2 - Apr. 3	7 - Apr. 8	12 - Apr. 13	17 - Apr. 17
3 - Mar. 23	8 - Mar. 28	13 - Apr. 2	18 - Apr. 7
4 - Apr. 11	9 - Apr. 16	14 - Mar. 22	19 - Mar. 27
5 - Mar. 31	10 - Apr. 5	15 - Apr. 10	

Thus, for the year 2000 the key is 6 or April 18. Since April 18th in the year 2000 is a Tuesday, Easter Sunday is April 23rd. CAUTION - If the Paschal Full Moon falls on a Sunday, Easter is the following Sunday. The earliest Easter can fall is March 23rd and the latest is April 25th.

Lent begins on Ash Wednesday which comes 40 days before Easter, excluding Sundays.

The Calcumetric

ANGLO—METRIC CONVERTER

This special section of your SUCCESS calendar enables quick, simple and accurate conversion from the Anglo measurements of Mass, Length, Capacity, Area, and Temperature to that of the Metric measurement system.

With our country's ultimate adoption of the Metric system and our increasing foreign trade the CALCUMETRIC converter is an invaluable tool for all areas of business, industry, education, as well as everyday use in the home.

Because the CALCUMETRIC converter illustrates the Anglo and Metric systems of measurements side by side, the interrelationships of the two systems can be gauged accurately in seconds without the use of mathematics.

INSTRUCTIONS FOR THE USE OF THE PERPETUAL CALENDAR ON THE FOLLOWING PAGES

Pick the desired year from the following tables of years 1700-2108. Opposite the desired year is a letter. Turn to the lettered calendars which follow the tables. Use the calendar which has the same letter as that opposite the desired year in the tables.

EXAMPLE – July 4, 1776. Turn to the tables and find the year 1776. Opposite 1776 is the letter B. Turn to calendar B and you find that our Declaration of Independence was adopted by the Continental Congress in Philadelphia on Thursday, July 4, 1776.

PENSION and LAND LAWS

1776= Pensions for the Continental Army and Navy, approved by the state, for half-pay while disabled.

1777= Anyone serving to the end of the war could get land, according to rank.

1778= Half-pay for 7 years for officers; full pay for 1 year for enlistees.

1780= Half-pay for life for invalid officers.
= Widows and orphans may receive balance due; must apply by 1792.

1783= Full-pay for invalid officers for 5 years.

1789= Federal government takes over for pension payments.

1806= Disability pensions now include those from state militias and others.

1818= Pensions for anyone serving 9 months in the Continental Army.

1820= Pensioners and new applicants must now include financial summaries.

1823= Pensioners dropped may reapply if there is financial need.

1828= Pensions to invalids are now full-pay for life for enlisted men.

1832= Full-pay for life for anyone serving in any unit for 2 years. Those serving between 6 months and 2 years receive half-pay for life. No financial or disability needs are required.

1836= Widows may now apply directly for a pension if veteran was eligible under 1832 act, and if she married him while he served.

1838= Widows may apply if she married the veteran before 1794.

1842= Veterans can trade land warrants for scrip for any public domain lands.

1848= Widows may apply if she married the veteran before 1800 (requirement removed in 1853 and 1855).

1855= Any soldier could get 160 acres of land; those who filed before could increase holdings to this amount; eligibility was service for 14 days. Widows and minor children could receive land grants.

1878= Pensions for any widow whose husband served 14 days or in a battle.

LAND and the REVOLUTIONARY WAR

Bounty land warrants let people get free land from the U.S. government. Thousands of veterans applied for warrants, but few actually settled on the land. The warrants have limited genealogical value.

Revolutionary War warrants are filed alphabetically with the pension applications. Many pre-1800 files were destroyed, however. The 80,000 existing applications are at the Family History Library and the U.S. National Archives. Warrants were mostly surrendered for land in the Military District of Ohio. This was generally done between 1796 and 1835.

GLOSSARY: MILITARY RECORDS

A.G.O.: Adjutant General's Office, the office which maintains the principal body of official U.S. Army records

CARD ABSTRACTS: Summaries of information found on originals, or copies of original documents reflecting the military service of individuals. The abstracts reflect all data found on the original records relating to the individual's service.

COMPILED MILITARY SERVICE RECORD: A jacket containing one or more card abstracts, reflecting information about an individual's service and sometimes original documents incidental to the service.

DESCRIPTIVE ROLL: The principal record of a draft enrollment district which relates to individual men. It includes the physical description and nativity.

ENLISTMENT PAPER: A document prepared at the time of enlistment stating the term of service and conditions. Some personal data is included in the information appearing on each paper.

ENLISTMENT REGISTER: A two-page entry reflecting the data appearing on the enlistment paper and information gathered at the time of separation from service.

MUSTER ROLL: A report listing the names, ranks, and other data about persons assigned to a particular military unit, giving cause for any absences.

PENSION FILE: The application, supporting evidence, rulings, and later correspondence relating to a veteran's benefits. The application may be by a veteran, widow, or heir.

POST RETURNS: Monthly status reports of military posts, camps, and stations, including names and duties of officers, lists of communications, and a record of events.

REGULARS: Persons who served in the permanent military establishments known as the U.S. Army, Navy and Marine Corps, Coast Guard and Air Force, whether in wartime or peacetime.

RETURN: A report usually containing only the names of the officers assigned to the unit and giving statistical data about other persons assigned to the unit.

SERVICE INDEX: A small card listing the name, rank, and unit of service of a veteran; there may be cross-references to other spellings; there may be more than one card if a veteran served in more than one unit.

VOLUNTEERS: Persons serving during wartime whether or not of their own volition.

Soldiers' Discharge recs - At all court houses

began on 1 January and ended on 31 December. But various clerks did not always use the proper double date prior to 1752 and this neglect sometimes leaves us in doubt as to the exact date intended. Therefore, if the months of January, February or March are involved prior to 1752, the double date must be taken into consideration even though it may not be given. If, for instance, the parish register records the death of a man in November 1741 and the court records indicate his will was admitted to probate in February 1741 the only logicial conclusion is that the will was probated in February 1741/2 and for some unknown reason the court clerk neglected to enter the double date. Most often by paging the court record books and carefully noting the sequence of the recordings, these discrepancies can be resolved. Likewise, if the original North Farnham Parish Register with its chronological arrangement had been preserved, there would be no doubt as to the exact date intended for recordings in the months of January, February and March prior to 1752 even if the parish clerk neglected to enter the double date.

While the "old style" double dating prior to 1752 in the months of January, February and March serves to explain some irregularities, there are others which cannot be explained through the complications of the Julian calendar. A case in point: I see a couple were married 13 July 1730 and their son Benjamin was born 25 December 1730. If Benjamin's birth had been entered as, say, 25 January 1731 then it is possible he might have been born 25 January 1731/2 which would have been a more appropriate time than he was - 5 months after his parents were married.

The following table may prove helpful as sometimes prior to 1752 a document is dated, as was the will of James Dempster, the 15th of X^ber^ 1676 and proved 6 June 1677 in Rappahannock County, Virginia, court. This means that Dempster's will was dated the 15th of the 10th month [i.e., December 15, 1676] and proved 6 June 1677.

OLD STYLE Prior to 1752, the year began March 25		NEW STYLE The year 1752 began with January 1

two publications that pioneered their use.

In both systems the members of each generation are listed, eldest branch first, and the numbering of each generation is completed before the next one is begun. Children of an individual are listed under that person (with an indication of the appropriate spouse), and are given a birth-order number in lower-case Roman numerals -- i, ii, iii, iv, etc.

In the Register system, Arabic numerals (1, 2, 3, etc.) are given, starting with 1 for the common ancestor, to each person whose line will be carried on and discussed under the following generation. This number precedes the small Roman numeral for birth-order. Individuals whose lines are not continued are not given Arabic numerals. This system is also used in *The American Genealogist.*[3] (Figure 2)

The Record system, sometimes called the modified Register system, assigns an Arabic numeral to each individual; that number precedes the birth-order Roman numeral in the list of children under each parent family. If a child's line is discussed further under the next generation, the Arabic number is prefixed by a "+". This system, which is also used in the *National Genealogical Society Quarterly,* has the advantage of providing each individual with a unique number by which he or she can be referred to. (Figure 3)

In the Record system, if the common ancestor #1 had five children, you would number them in the order of their birth 2 through 6. Next you number all the grandchildren, starting with the children of #2, designating the eldest as #7. Then you would assign numbers to the great-grandchildren, using the next available consecutive number for the first child of #7.

The Expansible Numbering System For Genealogies

Either of these systems works well after you have compiled a genealogy, but they're not very helpful while you're still organizing and adding to your working files, because once a number is assigned, there's no room for inserting a newly discovered family member. At this stage, you need a flexible system that can be expanded to include new descendants as you find them.

You can build an expansible numbering system on decimal principles, using one decimal place for each generation, and assigning digits to show the order of birth. Starting with the common ancestor as 1, his children would be numbered 11, 12, 13, etc. The children of #12 would be #121, #122, #123, and so on. If there are more than 9 children, you place two-digit numbers within parentheses to indicate a single decimal place -- 12 (10), 12(11), 12(12), etc. This is known as the Henry System, after Reginald Buchanan Henry, who used it in his *Genealogies of the Families of the Presidents* (Rutland: Tuttle, 1935). (Figure 4)[4]

While Henry used his system for compiled genealogies, it has not been widely adopted for that use, in spite of its simplicity and logic. However, is particularly well suited for numbering individuals in your work files while you are still discovering new descendants.

To avoid using parentheses, you can instead use the letters A to Z for the 10th to 35th child of any one parent; it is not likely you will exceed the capacity of the combined numeral-letter system. This modified Henry system keeps all the data on a generation within one decimal column, and was developed to better meet requirements for processing family data on computers.[5]

An expansible system used in Europe is similar to the Henry system, except that each digit (or group of two digits for numbers higher than 9) is separated by a period. It is called the d'Aboville system.[6]

Combining Ancestor and Descendant Numbering Systems

You can produce a unique identification number for any collateral relative in any line of descent by using the pedigree (Soja-Stradonitz) number of the common ancestor, followed by a decimal point and an expansible descent system number (Henry, modified Henry or d'Aboville) for each individual descended from that pedigree-chart ancestor.[7]

Using as an example your great-great grandfather #16, you would number his children in the order of their birth 16.1, 16.2, 16.3, etc. (Of course, one of them already has a number -- pedigree #8 -- so you can use it, in its proper order, in place of the decimal number or cross-referenced to it.) The children of #16.2 would be numbered in order 16.21, 16.22, 16.23, and so on.

Finally, you need a way to number spouses other than those in a direct ancestral line, or in a direct line of descent. The usual practice is to add lower-case letters -- a, b, c, etc. -- to the number of the husband or wife. For example, if you are descended from great-great-grandfather #16 and his second wife #17, you would number his first wife #16a and his third wife #16c. Similarly, the wife of his grandson #16.24 (not in your ancestral line) would be #16.24a, and the second husband of his granddaughter #16.23 would be #16.23b.

(Figure 5 is an example of combining pedigree and modified Henry system numbers, with lower-case letters used for spouses without numbers of their own.)

The high range of pedigree numbers after you go back several centuries shows that all of us must have many lines of descent from the same limited number of possible ancestors. Allowing 33⅓ years as an average interval between generations, 15 generations would take you back to the 1400's, and your pedigree numbers would show that you have 32,768 ancestors in that generation. Going back 12 more generations and another 400 years to about the time of the Norman conquest of England, you would have numbers for 67,108,834 ancestors in the 27th generation.

The total population of Great Britain at that time is estimated at 1.7 million people, so if you are of English or Scots ancestry, you must be descended through a number of different lines from many of the same ancestors. If all your ancestors are British, the mathematical probability is that you are descended 40 different ways from every person then living in Great Britain. In Ireland there were only 350,000 people, so if you are of Irish ancestry, the probability is that you are descended from every person then living in Ireland through 200 different lines from each one.

How To Number People In Pedigrees and Genealogies

By Donn Devine
2004 Kentmere Pkwy, Wilmington, DE 19806

To judge from the variety of examples in published genealogies, genealogists have a fascination for devising numbering systems to impose order upon the facts they collect.

Three basic systems are already in common use by experienced genealogists world-wide. Whether you're new to genealogy, or an old hand with a streak of individualism, you should consider the advantages of using these generally understood systems before adopting a numbering system of your own design. I will refer to the three systems as the pedigree system, the compiled genealogy system, and the expansible genealogy system, based on the use for which each is most appropriate.

Most basic works on genealogy do not discuss in any detail the systems for numbering people in genealogical records. As a result, many newcomers to the field devise their own systems to give some logical order to their records, and to the compiled results of their research when they offer it to others.

Here are the advantages of adopting for your own use one of the systems in widespread common use:

First, you don't have to explain your numbering system before other genealogists can understand your work.

Second, you create a good first impression by showing that you are familiar with the working tools used by experienced genealogists.

The Pedigree Numbering System

A pedigree lists ancestors, since the number of lines doubles in each generation, the system for numbering individual ancestors is simple. You (or the subject of the pedigree) are 1, your father is 2, your mother 3, your paternal grandfather 4, your paternal grandmother 5, your mother's father 6, her mother 7, and so on. (Figure 1)

This system owes its wide acceptance to both its simplicity and its usefulness. You can tell from it how people are related by the mathematical relationships between their numbers. Every male ancestor has an even number, and every female an odd one. Every person's father has double the person's own number. A wife's number is one more than her husband's; a mother's is double that of her child plus one.

If you're really into numbers, you can also use the system to obtain other interesting information. The number of any ancestor in the direct paternal (family name or agnatic) line is also equal to the number of ancestors in that generation. For example, your paternal grandfather's paternal grandfather -- your great-great-grandfather -- is #16, and you also have 15 other great-great-grandparents, for a total of 16 in that generation. His number, #16, is the 4th power of 2 (two multiplied by itself four times), showing that he belongs to the fourth generation preceding the subject of the pedigree.

To determine the generation of any individual, you simply find the highest power of 2 that does not exceed his or her pedigree number. For example, for ancestor #1513, the next lower power of 2 is 1,024, or 2 to the 10th power, showing that #1513 is in the 10th generation back, not including the subject. From the odd number, we know that she is female, and the other relationships show that she was the wife of #1512, and the mother of #756 in the 9th generation.

This system is commonly used world-wide, and is properly called the Sosa-Stradonitz system, for the Spanish genealogist Jerome de Sosa who first used it in 1676, and for Stephen Kekule von Stradonitz, who popularized it in his 1896 *Ahnentafel* (Ancestor Table) *Atlas*. It is also sometimes called the Ahnentafel numbering system, after the book.[1]

Most printed pedigree forms use this system, and the popular "five-generation" forms (the subject and the four preceding generations) have pre-printed numbers for the 31 individuals provided for. They have a space to number each chart, and a notation "Person No. 1 on this chart is the same person as No. ____ on chart No. ____." Lines 16 to 31 each have a notation "Continued on chart ____).

While a chart number combined with a person number, for example 3 / 29, is sufficient to keep your charts in good order, you will find it helpful to place on each chart the full pedigree number for each person listed. This will let you use the number relationships just described, and it also helps avoid confusion in cross-referencing when the same person appears in several different ancestral lines in your pedigree -- usually on different charts, and often in different generations.

Numbering Compiled Genealogies

There is less universal agreement on how to number people in a genealogy, which lists the descendants of a common ancestor, than there is on numbering pedigrees. The style used in most American genealogical publications is to number people consecutively in each generation, starting with the common ancestor as 1, before going on to the next generation.

Traditional European practice favored an outline numbering system, listing all descendants in an individual line before going on to junior lines. It results in complete numbers like "IV 2 a iii", but only the final number or letter appears beside each name. Names in each generation are indented, outline style, from their parents in the preceding generation. Sons are generally listed before daughters, regardless of birth order.[2]

There are two variations of the American practice, one called the Register or New England system, for the *New England Historical and Genealogical Register*, the other a modification of it called the Record system, for the *New York Genealogical and Biographical Record*, the

Lecture Outline

I. What is the NUCMC?
On-going project of the Library of Congress to catalog U. S. manuscript holdings.

II. What is included?
A. Documents which are normally held by an archival institution, but which are available in a repository dissociated with the creating institution such as a University Library or a Historical Society.
B. Documents held by an archival institution which would not normally be included in their holdings such as family papers.

III. Where is it located?
Major universities and research libraries.

IV. How to use it:
A. Indexes:
1. Geographic guide in 1981 volume lists reporting repositories by state with years they reported.
2. Repository index published every 4-5 yrs. Repositories are listed alphabetically with names of all reported collections along with the year and numerical listing in the volume.
3. Cumulative indices published every four to five years in addition to the yearly index.
a. Numbers after name of collections refer to the year of publication and numerical number assigned by Library of Congress (e.g. 68-200).
b. Underlined collections indicate that the entire collection concerns the indexed topic.
c. Every personal name, place name and subject mentioned in a collection description is indexed.
4. Index to Personal Names in the National Union Catalog of Manuscript Collections, 1959-1984, Elizabeth Altham et al., eds., 2 vols. (Alexandria, Va: Chadwyck-Healey, 1988).
B. Terminology used in describing collections (see p.3).
C. Collection descriptions set up in standard format.
1. Name of collection as known in the repository (watch out for artificial collection titles or ones simply changed by NUCMC Staff).
2. Dates encompassed by collection are for the earliest and latest dated items in the collection.
a. If collection centers around an individual, birth and death dates will be shown. Heaviest concentration of material will be in the individuals' adult years.
b. Manuscript collections usually are arranged in chronological order.
3. Size of collection.
a. Item is the smallest unit- can be a piece of paper or a letter of several pages in length.
b. Volume means bound versus loose papers.
4. Location of repository.
5. Collection description.
a. Does not contain minute detail since NUCMC is catalog of national scope. Always check repository's own catalog for more complete detail about the collection.
b. Can be built around an individual, subject, or family.
6. Index does not mean there is an every name index to collection. This indicates that the repository usually has a detailed guide or inventory.
7. How collection was acquired whether by gift, purchase or by deposit.

V. Examples of county court records and military records found through NCMUC.

DEFINITION OF MATERIAL DESCRIBED IN THE

NATIONAL UNION CATALOG OF MANUSCRIPT COLLECTIONS OR THE "NUCMC"

"Archives is defined as the formal and informal records that are generated by the administrative, organizational, or operational activities of public bodies and private organizations, together with documents received or collected by them in connection with their activities. Collections of these records are included in the National Union Catalog of Manuscript Collections when they are regularly available to the public in a repository dissociated from the creating institution, such as a public library, historical society, or university. Therefore, county records in a county courthouse, administrative correspondence of a governor in a state archives, operational records maintained by a firm, or minutes of a society's meetings on file in its headquarters are thereby excluded by this provision. If, however, an archival institution contains substantial amounts of personal, professional, or non-functional material, such collections are eligible for inclusion in NUCMC. For example, family papers in state archives are to be reported to NUCMC even though they are housed in an archival setting."[1]

National Union Catalog of Manuscript Collections

Sampling of Terminology found in Manuscript Collection Descriptions

by Mary McCampbell Bell, CALS, CGL

1. Account book: see business records, ledger, journal.
2. Business records: "financial and other business records of a person or family."[1] These include account books, cashbooks, daybooks, invoice books, journals, ledgers, memorandum books, receipt books, and letter books.
3. Commonplace book: a book containing favorite quotations, recipes, poems or other miscellaneous material.
4. Daybook: "often used in place of the waste book and the journal."[2] business records, journal, waste book.
5. Docket book: usually found in legal records, and is a list of cases to be tried.
6. Item:"a separable writing identifiable as a unit; thus a letter, whatever the number of leaves, would be counted as a single item. A draft of an article or a novel is one item, as is a diary,or an account ledger, whether in one or many volumes."[3]
7. Journal: transactions were transferred to the journal from the waste book before being entered into the ledger.[4] See business records, daybook, ledger, wastebook. Could be a book of first entry in business. Also a diary.
8. Ledger: "principal book of accounts...in it were kept all the accounts with the various assets and liabilities."[5]
9. Letter book: "contained copies of all the letters of the business which the merchant had occasion to transmit."[6]
10. Memorandum book: informal written record of a transaction. See business records.
11. Orderly book: military orders issued from the commanding officers down to the company level.[7]
12. Repository: "general term used to cover a library, a historical society, an archives or public or quasi-public body holding manuscript collections."[8]
13. Returns: in military records, these are statistics to show losses and gains. Very seldom show names of soldiers.[9]
14. Waste book: "daily transactions [were recorded] as they occurred."[10] [then were transferred to the journal]. See business records, daybook, ledger, journal.

Note: a term may have different meanings, depending upon the time period. Several terms, used interchangeably, may describe the same record. I have attempted to give the term used by merchants of the 18th and early 19th centuries for the business records.

This slide presentation and lecture will focus on the experiences of our ancestors as they journeyed across the Atlantic in steerage and then passed through the inspections at Ellis Island during the peak years of immigration, 1880-1920.

A transcript of this lecture may be found as a part of Appendix A in Sharon DeBartolo Carmack's *Italian-American Family History: A Guide to Researching and Writing About Your Heritage* (Baltimore: Genealogical Publishing Co., [Spring] 1997).
